HARMONY

Ceramics with an Artisan Soul

At Harmony, we see ceramics as something born from the meeting of raw material and the hands that shape it. We are committed to a manual, human-centered creation process, where every form, texture, and finish is the result of patient and meticulous dedication. Design does not arise from haste, but from observation—from the initial sketch that is repeated, refined, and shaped until it becomes a unique piece with its own character.

This handcrafted approach allows us to create collections that convey warmth, closeness, and an authentic feel that is hard to replicate. Surfaces are never flat or uniform: within them, one can sense the gesture, the intention, and the rhythm of work done with care. Beyond their individual beauty, each collection is designed to live in harmony with the others. We design with versatility in mind—balancing pieces, styles, and color palettes to create a coherent, flexible ceramic universe full of creative possibilities.

In an increasingly fast-paced world, we choose to reclaim the value of time, of attentive craftsmanship, and of products born from both process and result. In every Harmony collection, there is a connection to the essential: ceramics as a living material, shaped with purpose, designed to endure, and made to exist in perfect harmony.

Cerámica con alma artesanal

En Harmony concebimos la cerámica como lo que nace del encuentro entre el material y las manos que lo transforman. Apostamos por un proceso de creación manual, humana, donde cada forma, textura y acabado es el resultado de una dedicación paciente y meticulosa. El diseño no surge de la prisa, sino de la observación, del trazo inicial que se repite, se afina y se moldea hasta convertirse en una pieza única, con carácter propio.

Este enfoque manual nos permite crear colecciones que transmiten cercanía, calidez y una sensación de autenticidad difícil de replicar. Las superficies no son planas ni uniformes: en ellas se percibe el gesto, la intención y el ritmo del trabajo hecho con cuidado. Pero más allá de su belleza individual, cada colección está pensada para convivir en armonía con las demás. Diseñamos teniendo en cuenta la combinabilidad entre piezas, estilos y gamas cromáticas, creando un universo cerámico flexible, coherente y lleno de posibilidades.

En un mundo cada vez más acelerado, apostamos por recuperar el valor del tiempo, del trabajo hecho con atención y del producto que nace tanto del proceso como del resultado. En cada colección de Harmony se percibe esa conexión con lo esencial: la cerámica como materia viva, diseñada con intención, pensada para durar y para convivir en perfecta armonía.

# SUSTAINABILITY

## ENVIRONMENTAL AND SOCIAL

### ENVIRONMENTAL PERFORMANCE

At HARMONY, sustainability and respect for the environment are fundamental principles. We strive to make our activities increasingly sustainable by applying efficient and innovative technologies that minimize environmental impact.

- Our environmental values are reflected in:
- **ISO 14001 Certification:** Environmental management based on international standards.
  - **Environmental protection:** Pollution prevention through responsible use of raw materials, efficient waste management, and emission reduction.
  - **Regulatory compliance:** Strict adherence to applicable environmental legislation.
  - **Energy efficiency:** Investment in more efficient technologies and processes to optimize energy consumption.
  - **Sustainable innovation:** Development of solutions that enhance the environmental performance of our production.
  - **Circular economy:** Promotion of material reuse and recycling to reduce the use of natural resources.
  - **Climate action:** Implementation of concrete measures to reduce CO<sub>2</sub> emissions and improve production efficiency.

### REAL COMMITMENT TO THE ENVIRONMENT

We have implemented numerous measures that help us advance toward a more sustainable business model:

- 1. Service life**  
Our ceramic tiles have a lifespan of up to 50 years, which significantly reduces their environmental impact compared to other construction materials.
- 2. Climate change and CO<sub>2</sub> emission reduction**  
We have implemented major measures to improve energy efficiency and reduce CO<sub>2</sub> emissions to help combat climate change, such as:
- Installation of high-efficiency burners and heat exchangers.
  - Heat loss detection protocols.
  - Use of electric forklifts throughout the production chain.
  - Installation of LED lighting in all our facilities, saving 250,000 kWh/year.
  - Installation of 15,000 m<sup>2</sup> of photovoltaic panels, resulting in energy savings of 1,828,000 kWh and a reduction of 440 tCO<sub>2</sub>.
- 3. Carbon footprint**  
In line with our commitment to protecting the natural environment, and beyond merely complying with applicable environmental regulations, we strive to identify and understand the greenhouse gas emissions generated by our activities. This knowledge enables us to actively promote the reduction of these emissions, in line with our sustainability and environmental responsibility goals. In this context, the organization calculates its Carbon Footprint in accordance with the requirements and recommendations of the international **GHG Protocol (Greenhouse Gas Protocol)**.
- 4. Circular economy**  
Our manufacturing process follows a sustainable model that reduces waste and promotes reuse and recycling:
- 100% reuse of pressing and glazing waste, amounting to 4,200,000 kg annually.
  - 100% reuse of fired tile waste, totaling 4,800,000 kg annually.
  - 100% recovery and reuse of wastewater, achieving zero discharge—more than 15 million liters per year.
  - Continuous identification of new waste recovery and valorization strategies.

- 5. Air emissions**  
We minimize particle emissions into the atmosphere through the continuous operation of air purification systems, such as bag filters, which reduce particulate emissions. These particles are recovered and reused in the atomized material manufacturing process, improving air quality.
- 6. Waste management**  
We reuse 100% of clay waste and industrial water in the production of clay-based raw materials. We also reuse 100% of discarded fired tiles and efficiently manage cardboard, plastic, and wood packaging through the **SCRAP (Extended Producer Responsibility Systems)**.
- 7. Eco-design**  
Our products and processes incorporate:
- Tiles with a minimum percentage of recycled material, verified under ISO 14021.
  - Clean digital decoration technology using water-based inks, with no solvent waste generation.
  - Tile packaging made of 100% recycled and recyclable cardboard.
  - Pallet packaging with 50% recycled plastic.
- 8. Sustainable building**  
Our tiles contribute to sustainable construction by offering:
- Zero emission of VOCs (Volatile Organic Compounds).
  - Easy cleaning and maintenance.
  - High solar reflectance, reducing the "urban heat island" effect.
  - Durability and recyclability.
  - Environmental impact quantification through the **EPD (Environmental Product Declaration)**.
- 9. System and process certifications**  
We are certified in:
- ISO 14001: Environmental management.
  - ISO 9001: Quality management.
  - Carbon Footprint Reporting.
- 10. Product certifications**  
Our products are certified by:
- **GlobalEPD** (Environmental Product Declaration) under ISO 14025.
  - **FDES** (Fiche de déclaration environnementale et sanitaire).
  - **ISO 14021**, certifying recycled content.
- 11. Sustainability platforms**  
We actively participate in **ECOVADIS** and **SEDEX** to evaluate our sustainability performance and that of our supply chain.

### ETHICAL AND SOCIAL COMMITMENT

We uphold an equality policy and a code of ethics that guide our social behavior.

- Our core values include:**
- Equal opportunities without discrimination.
  - A fair and inclusive work environment.
  - Ongoing training for professional development.
  - A firm stance against child labor.
  - Compliance with legislation, human rights, and ethical standards.
  - Guarantee of occupational health and safety.
  - Respect for individuals and dignified work.
  - Good governance and ethical conduct.
  - Promotion of fair competition and social development.

# SOSTENIBILIDAD

## MEDIOAMBIENTAL Y SOCIAL

### DESEMPEÑO MEDIOAMBIENTAL

En HARMONY, la sostenibilidad y el respeto por el entorno son principios esenciales. Nos esforzamos por que nuestras actividades sean cada vez más sostenibles, aplicando tecnologías eficientes e innovadoras que minimicen el impacto ambiental.

Nuestros valores medioambientales se reflejan en:

- **Certificación ISO 14001:** Gestión ambiental basada en estándares internacionales.
- **Protección del entorno:** Prevención de la contaminación mediante el uso responsable de materias primas, una gestión eficiente de residuos y la minimización de emisiones.
- **Cumplimiento normativo:** Observamos rigurosamente la legislación ambiental aplicable.
- **Eficiencia energética:** Invertimos en tecnologías y procesos más eficientes para optimizar el consumo energético.
- **Innovación sostenible:** Desarrollamos soluciones que mejoran el desempeño ambiental de nuestra producción.
- **Economía circular:** Fomentamos la reutilización de materiales y el reciclaje para reducir el uso de recursos naturales.
- **Lucha contra el cambio climático:** Impulsamos acciones concretas para reducir emisiones de CO<sub>2</sub> y aumentar la eficiencia productiva.

### COMPROMISO REAL CON EL MEDIO AMBIENTE

Hemos implementado numerosas medidas que nos permiten avanzar hacia un modelo de negocio más sostenible:

#### 1. Vida útil

Nuestras baldosas cerámicas tienen una vida útil de hasta 50 años, lo que reduce su impacto ambiental frente a otros materiales de construcción.

#### 2. Cambio climático y reducción de las emisiones de CO<sub>2</sub>

Hemos implementado medidas significativas para mejorar la eficiencia energética y reducir las emisiones de CO<sub>2</sub> y con ello combatir el cambio climático, tales como:

- Instalación de quemadores de alta eficiencia e intercambiadores de calor.
- Protocolos de detección de fugas de calor.
- Uso de carretillas elevadoras eléctricas en toda la cadena de producción.
- Montaje de luminarias LED en todas nuestras instalaciones con un ahorro energético de 250.000 kWh/año.
- Instalación 15.000 m<sup>2</sup> de placas fotovoltaicas que nos ha permitido un ahorro energético de 1.828.000 kWh y una reducción de 440 tCO<sub>2</sub>.

#### 3. Huella de carbono

En línea con el compromiso adquirido con la protección del entorno natural, y más allá del cumplimiento de las regulaciones ambientales aplicables, nos esforzamos por conocer y comprender las emisiones de gases de efecto invernadero generadas por nuestra actividad. Este conocimiento nos permite impulsar activamente la reducción de dichas emisiones, en coherencia con nuestros objetivos de sostenibilidad y responsabilidad ambiental. En este contexto, la organización calcula su Huella de Carbono conforme a los requisitos y recomendaciones del estándar internacional **GHG Protocol (Greenhouse Gas Protocol)**.

#### 4. Economía circular

Nuestro proceso de fabricación sigue un modelo sostenible que reduce residuos y fomenta la reutilización y el reciclaje:

- Reutilización del 100% de desechos del proceso de prensado y esmaltado, lo que supone un reciclado de 4.200.000 Kg anuales.
- Reutilización del 100% de los desechos de baldosas cocidas, lo que supone el reciclado de 4.800.000 Kg anuales.
- Aprovechamiento del 100% de las aguas residuales, logrando un vertido cero: más de 15 millones de litros anuales son reutilizados.

- Identificación continua de vías para la valorización de residuos.

#### 5. Emisiones a la atmósfera

Minimización de la emisión de partículas a la atmósfera mediante el funcionamiento en continuo de sistemas de depuración de aire como los filtros de mangas para la reducción de las emisiones de partículas (que se recuperan y se reutilizan en la fabricación de atomizado) y mejora de la calidad del aire.

#### 6. Gestión de residuos

Reutilizamos el 100% de los residuos arcillosos y aguas industriales en el proceso de fabricación de la materia prima arcillosa. Reutilizamos el 100 % de los residuos de baldosas cocidas que se han desechado, y gestionamos eficientemente los envases de cartón, plástico y madera a través del **SCRAP (Sistemas Colectivos de Responsabilidad Ampliada del Productor)**.

#### 7. Ecodiseño

Nuestros productos y procesos incluyen:

- Baldosas con un mínimo del % de material reciclado, verificado según ISO 14021.
- Tecnología limpia de decoración digital con tintas a base de agua sin generación de residuos de disolvente.
- Embalajes de las baldosas con cartón 100% reciclado y reciclable.
- Embalajes de los pallets con plástico 50% reciclado.

#### 8. Edificación sostenible

Nuestras baldosas contribuyen a la construcción sostenible gracias a:

- Emisión cero de CO V's (compuestos orgánicos volátiles).
- Facilidad de limpieza.
- Alta reflexión solar, disminuyendo el efecto "isla de calor".
- Durabilidad y reciclabilidad.
- Cuantificación de los impactos ambientales a través de la **DAP (Declaración Ambiental de Producto)**.

#### 9. Certificaciones de sistemas y procesos

Contamos con las certificaciones:

- ISO 14001: Gestión ambiental.
- ISO 9001: Gestión de calidad.
- Informe de Huella de Carbono

#### 10. Certificaciones de productos

Nuestros productos cuentan con certificaciones como:

- **GlobalEPD** (Declaración Ambiental de Producto) según ISO 14025.
- **FDES** (Fiche de déclaration environnementale et sanitaire).
- **ISO 14021** que certifica el contenido en material reciclado.

#### 11. Plataformas sostenibilidad

Participamos activamente en **ECOVADIS** y **SEDEX**, para evaluar nuestro desempeño sostenible y el de nuestra cadena de suministro.

### COMPROMISO ÉTICO Y SOCIAL

Mantenemos una política de igualdad y un código ético que guían nuestro comportamiento social.

Entre nuestros valores se encuentran:

- Igualdad de oportunidades sin discriminación.
- Ambiente de trabajo igualitario.
- Formación continua para el desarrollo profesional.
- Compromiso contra el trabajo infantil.
- Respeto a la legislación vigente, derechos humanos y ética.
- Garantía de seguridad y salud laboral.
- Respeto a las personas y trabajo digno.
- Buen gobierno y comportamiento ético.
- Fomento de la competencia leal y desarrollo social

# QUALITY CERTIFICATIONS

## CERTIFICADOS DE CALIDAD

Quality management system in compliance with ISO 9001 norm. Certifies a continuous improvement of processes, products and services, the objective of which is the complete satisfaction of all our involved parties.

Sistema de gestión de la calidad basado en la norma internacional ISO 9001. Certifica la mejora continua de todos los procesos, productos y servicios de la organización con el objetivo de aumentar la satisfacción de todas nuestras partes interesadas.

This declares that our products comply with the stipulations of the CE marking, under which a product must be assessed before it is put on sale and comply with the applicable health, safety and environmental requirements.

Declara la conformidad de nuestros productos con los requisitos establecidos en el mercado CE que establece que un producto es evaluado antes de ser introducido en el mercado y que cumple con los requisitos de seguridad, salud y protección medioambiental aplicables.

The CCC certificate is compulsory for products exported to China. It guarantees that products with a low water absorption rate (E<0.5%) comply with the safety and quality requirements.

El certificado CCC es un sistema de certificación obligatorio para las exportaciones a China que garantiza que los productos con baja absorción de agua (E<0.5%) cumplen con los requisitos de seguridad y calidad establecidos.

The Saudi Quality Mark (SQM) is a quality mark regulated by SASO (Saudi Standards, Metrology, and Quality Organization) in order to conduct exports to the country.

La Saudi Quality Mark (SQM) es una marca de calidad regulada por SASO (Organización Saudita de Estándares, Metrología y Calidad) para poder realizar exportaciones al país.

# SUSTAINABILITY REPORTS

## INFORMES SOSTENIBILIDAD

### Carbon Footprint Report:

A document that determines the amount of greenhouse gas emissions associated with the organization's activities.

### Informe huella de carbono:

Documento donde se determina la cantidad de emisiones de los gases de efecto invernadero asociadas a la actividad de la organización.

### Sustainability Report (Non-Financial Statement Report):

A document that discloses the company's performance in non-economic aspects. It includes information about the company's sustainability performance.

### Informe de sostenibilidad (informe de estados no financieros):

Documento que revela el desempeño de la empresa en aspectos no económicos. Es un documento que incluye información sobre el desempeño de la empresa en términos de sostenibilidad.

# SUSTAINABILITY CERTIFICATIONS

## CERTIFICADOS DE SOSTENIBILIDAD

Environment management system in compliance with the UNE-EN ISO 14001 standard. Certifying system for application requirements which guarantee minimization of environmental impact, according to our commitment to sustainability.

Sistema de gestión medioambiental basado en la norma internacional UNE-EN ISO 14001. Sistema que certifica el cumplimiento de todos los requisitos legales de aplicación y garantiza la minimización de los impactos ambientales asociados a los procesos de la organización en línea con nuestro compromiso de sostenibilidad.

Certification that supports and endorses honest and transparent environmental communication, ensuring that claims related to the environmental performance of products comply with internationally recognized standards.

Certificación que respalda y avala la comunicación ambiental honesta y transparente, asegurando que las afirmaciones relacionadas con el desempeño ambiental de los productos cumplan con estándares reconocidos a nivel internacional.

An Environmental Product Declaration in compliance with the UNE-EN ISO 14025 standard, which provides environmental info based on the lifecycle of our products.

Es una Declaración Ambiental de Producto de conformidad con la Norma UNE-EN ISO 14025, que proporciona información medioambiental basada en el ciclo de vida de nuestros productos.

Document used to report the environmental and health impact of our products. It is based on the results of the Life Cycle Assessment (LCA), includes additional health-related information.

Documento que se utiliza para informar sobre el impacto ambiental y sanitario de nuestros productos. Se basa en los resultados del Análisis del Ciclo de Vida, con información adicional sobre salud.

An environmental label for the french market, which provides information on the VOC content (volatile organic compounds). It declares that our products are rated A+, contributing to a healthy environmentally-friendly habitat.

Etiqueta medioambiental para el mercado francés que informa sobre el contenido en COV's (compuestos orgánicos volátiles). Declara que nuestros productos son A+, contribuyendo a un hábitat sano y respetuoso con el medioambiente.

A sustainable building certification system developed by U.S. Green Building Council®. Our products can contribute to obtain points for LEED certification.

Sistema de certificación de edificios sostenibles desarrollado por U.S. Green Building Council®. Nuestros productos pueden contribuir a obtener puntos para la certificación LEED.

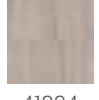

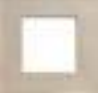

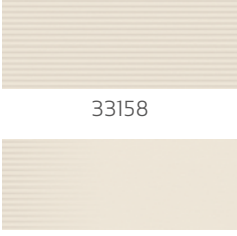

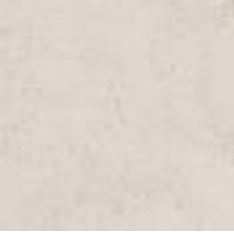

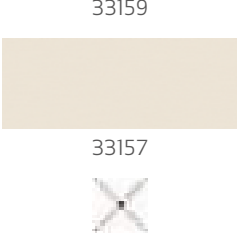

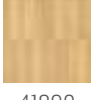

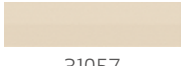

A sustainable building certification system developed by Building Research Establishment. Our products can contribute to obtain points for BREEAM® certification.

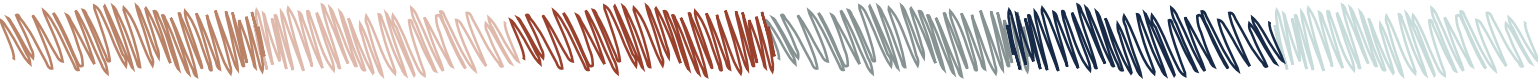

Sistema de certificación de edificios sostenibles desarrollado por Building Research Establishment. Nuestros productos pueden contribuir a obtener puntos para la certificación BREEAM®.

## Porcelain Tile

90 x 90 cm — 35.4 x 35.4"

white · sand · clay · gold · green

AWEN is a ceramic collection that fuses the beauty of stone with the power of creativity. Inspired by the solidity and majesty of ancient Celtic constructions, AWEN represents divine inspiration and creativity. With its 90x90 cm format, each tile in this collection reflects a continuous flow of stimuli, reminding us that true beauty arises from our connection with nature and art. The AWEN collection, available in five colors, stands out for its natural and anti-slip finishes, ideal for outdoor use. The intricate details and the two decorative options that simulate embedded stones add a contemporary and elegant touch, evoking the serenity and robustness of ancient stones. This collection is perfect for those looking to transform their spaces into a haven of tranquility and style. AWEN not only beautifies spaces but also offers functionality and durability, making each environment a unique and welcoming place.

AWEN es una colección cerámica que fusiona la belleza de la piedra con el poder de la creatividad. Inspirada en la solidez y majestuosidad de las antiguas construcciones celtas, AWEN representa la inspiración divina y la creatividad. Con su formato de 90x90 cm, cada azulejo de esta colección refleja el flujo continuo de estímulos, recordándonos que la verdadera belleza surge de nuestra conexión con la naturaleza y el arte. La colección AWEN, disponible en cinco colores, destaca por sus acabados natural y antideslizante, ideal para uso exterior. Los intrincados detalles y las dos opciones de decorados que simulan piedras incrustadas aportan un toque contemporáneo y elegante, evocando la serenidad y robustez de las piedras milenarias. Esta colección es perfecta para quienes buscan transformar sus espacios en un refugio de tranquilidad y estilo. AWEN no solo embellece los espacios, sino que también ofrece funcionalidad y durabilidad, haciendo de cada ambiente un lugar único y acogedor.

AWEN collection perfectly matches with RUBIK, CRISP and SAMIRA collections

# Meraki

## Porcelain Tile

90 x 90 cm — 35.4 x 35.4"

pearl · sand · taupe · clay · green · blue · anthracite

Collection designed with passion and dedication, conspicuous for its 90x90 format and striking cement appearance. With its mix of urban sophistication and contemporary appeal, it is the perfect backcloth for creativity and personal expression, whether it is used indoors or out. MERAKI features a total of 9 well-assorted models in a selection of timeless neutral shades or more vibrant eye-catching ones. Pearl, Sand and Taupe are soft-coloured versatile models, able to fit in with a wide variety of styles or settings. In contrast, Meraki's more trendsetting shades (its subtle Blue, Green, Clay and Anthracite models) guarantee a bold, modern touch, perfect for mixing and matching with the LAGOON collection. The Pearl and Sand models are also available in C3.

Colección diseñada con pasión y dedicación que se distingue por su formato 90x90 y su deslumbrante aspecto cementoso. En MERAKI se combina a la perfección la sofisticación urbana con una estética contemporánea, creando un lienzo perfecto para la creatividad y la expresión personal tanto en espacios interiores como exteriores. Con un total de 9 referencias, ofrece una gran variedad a escoger entre tonos neutros y atemporales y otros en tendencia más vibrantes y cautivadores. Los suaves matices de Pearl, Sand y Taupe reflejan una paleta de colores versátil, capaz de adaptarse a una amplia gama de estilos y ambientes. Mientras tanto, tonos en tendencia son los sutiles tonos Blue, Green, Clay y Anthracite, que añaden un toque de audacia y modernidad a la colección. Todos ellos ofrecen una combinabilidad perfecta con la colección LAGOON. Además, las referencias Pearl y Sand también están disponibles en C3, permitiendo su colocación en espacios exteriores.

## Porcelain Tile

90 x 90 cm — 35.4 x 35.4"

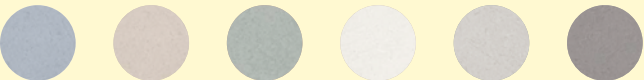

white · sand · green · blue · silver · grey

SENSA pays decorative tribute to micro-terrazzo tiles, originally developed in Venice, in a 90x90 format. A collection suitable for use on walls and floors, it features 6 models in a choice of white, sand, green, blue, grey and silver. This is the first collection by HARMONY to have been made with **SHAPED TECH** technology, with a digitally created relief texture that matches the printed design to perfection. The resulting tiles are some of the most natural looking in the tile sector.

HARMONY presenta con SENSE su particular homenaje decorativo al micro terrazo, original de Venecia. En un formato 90x90 nos muestra una colección apta para pavimento y revestimiento en 6 tonalidades diferentes. La primera colección de HARMONY realizada con tecnología **SHAPED TECH**, donde los relieves son creados con tecnología digital perfectamente coordinada con la impresión gráfica para generar las piezas más naturales realizadas en el sector.

SENSA collection perfectly matches with RABAT collection

## Porcelain Tile

22,3 x 22,3 cm — 8.7 x 8.7"

taupe · green

Inspired by autumnal warmth and vintage charm, AMBER offers a hydraulic design that combines tradition and modernity. Available in two tones — green and taupe — this 22.3x22.3 cm porcelain collection captures the essence of classic mosaics, adding a nostalgic and sophisticated touch to any space. AMBER is the perfect choice for those seeking a cozy atmosphere, while also enjoying the advantages of a product made with the latest technological advances.

Inspirada en la calidez otoñal y el encanto vintage, AMBER nos ofrece un diseño hidráulico que combina tradición y modernidad. Disponible en dos tonalidades— green y taupe —esta colección de porcelánico en formato 22,3x22,3 cm captura la esencia de los mosaicos clásicos, añadiendo un toque nostálgico y sofisticado a cualquier espacio. AMBER es la elección perfecta para quienes buscan una atmósfera acogedora y al mismo tiempo las ventajas de un producto fabricado con los últimos avances tecnológicos.

AMBER collection perfectly matches with ELIPSE, RAINBOW, CRISP collections

## Porcelain Tile

22,3 x 22,3 cm — 8.7 x 8.7"

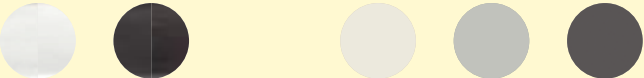

white · silver

A tile collection that is modernist essence, with plant and geometrical designs evocative of the early 20th century. CUBAN brings the beauty of cement tiles to 22.3x22.3 cm porcelain tiles. Its models, with their different patterns, come in a choice of two different colours: one in differing intensities of grey and the other with a stronger contrast between black and white.

Esencia modernista a través de gráficas geométricas y ornamentales que nos trasladan al principio del siglo XX. La colección CUBAN rescata la tendencia hidráulica para renovarla en material porcelánico de formato 22,3x22,3 cm. Las referencias, de diferentes motivos gráficos, se presentan en dos gamas cromáticas diferentes, una que combina diferentes intensidades de gris y otra con una mayor contraposición que combina el color blanco con el negro.

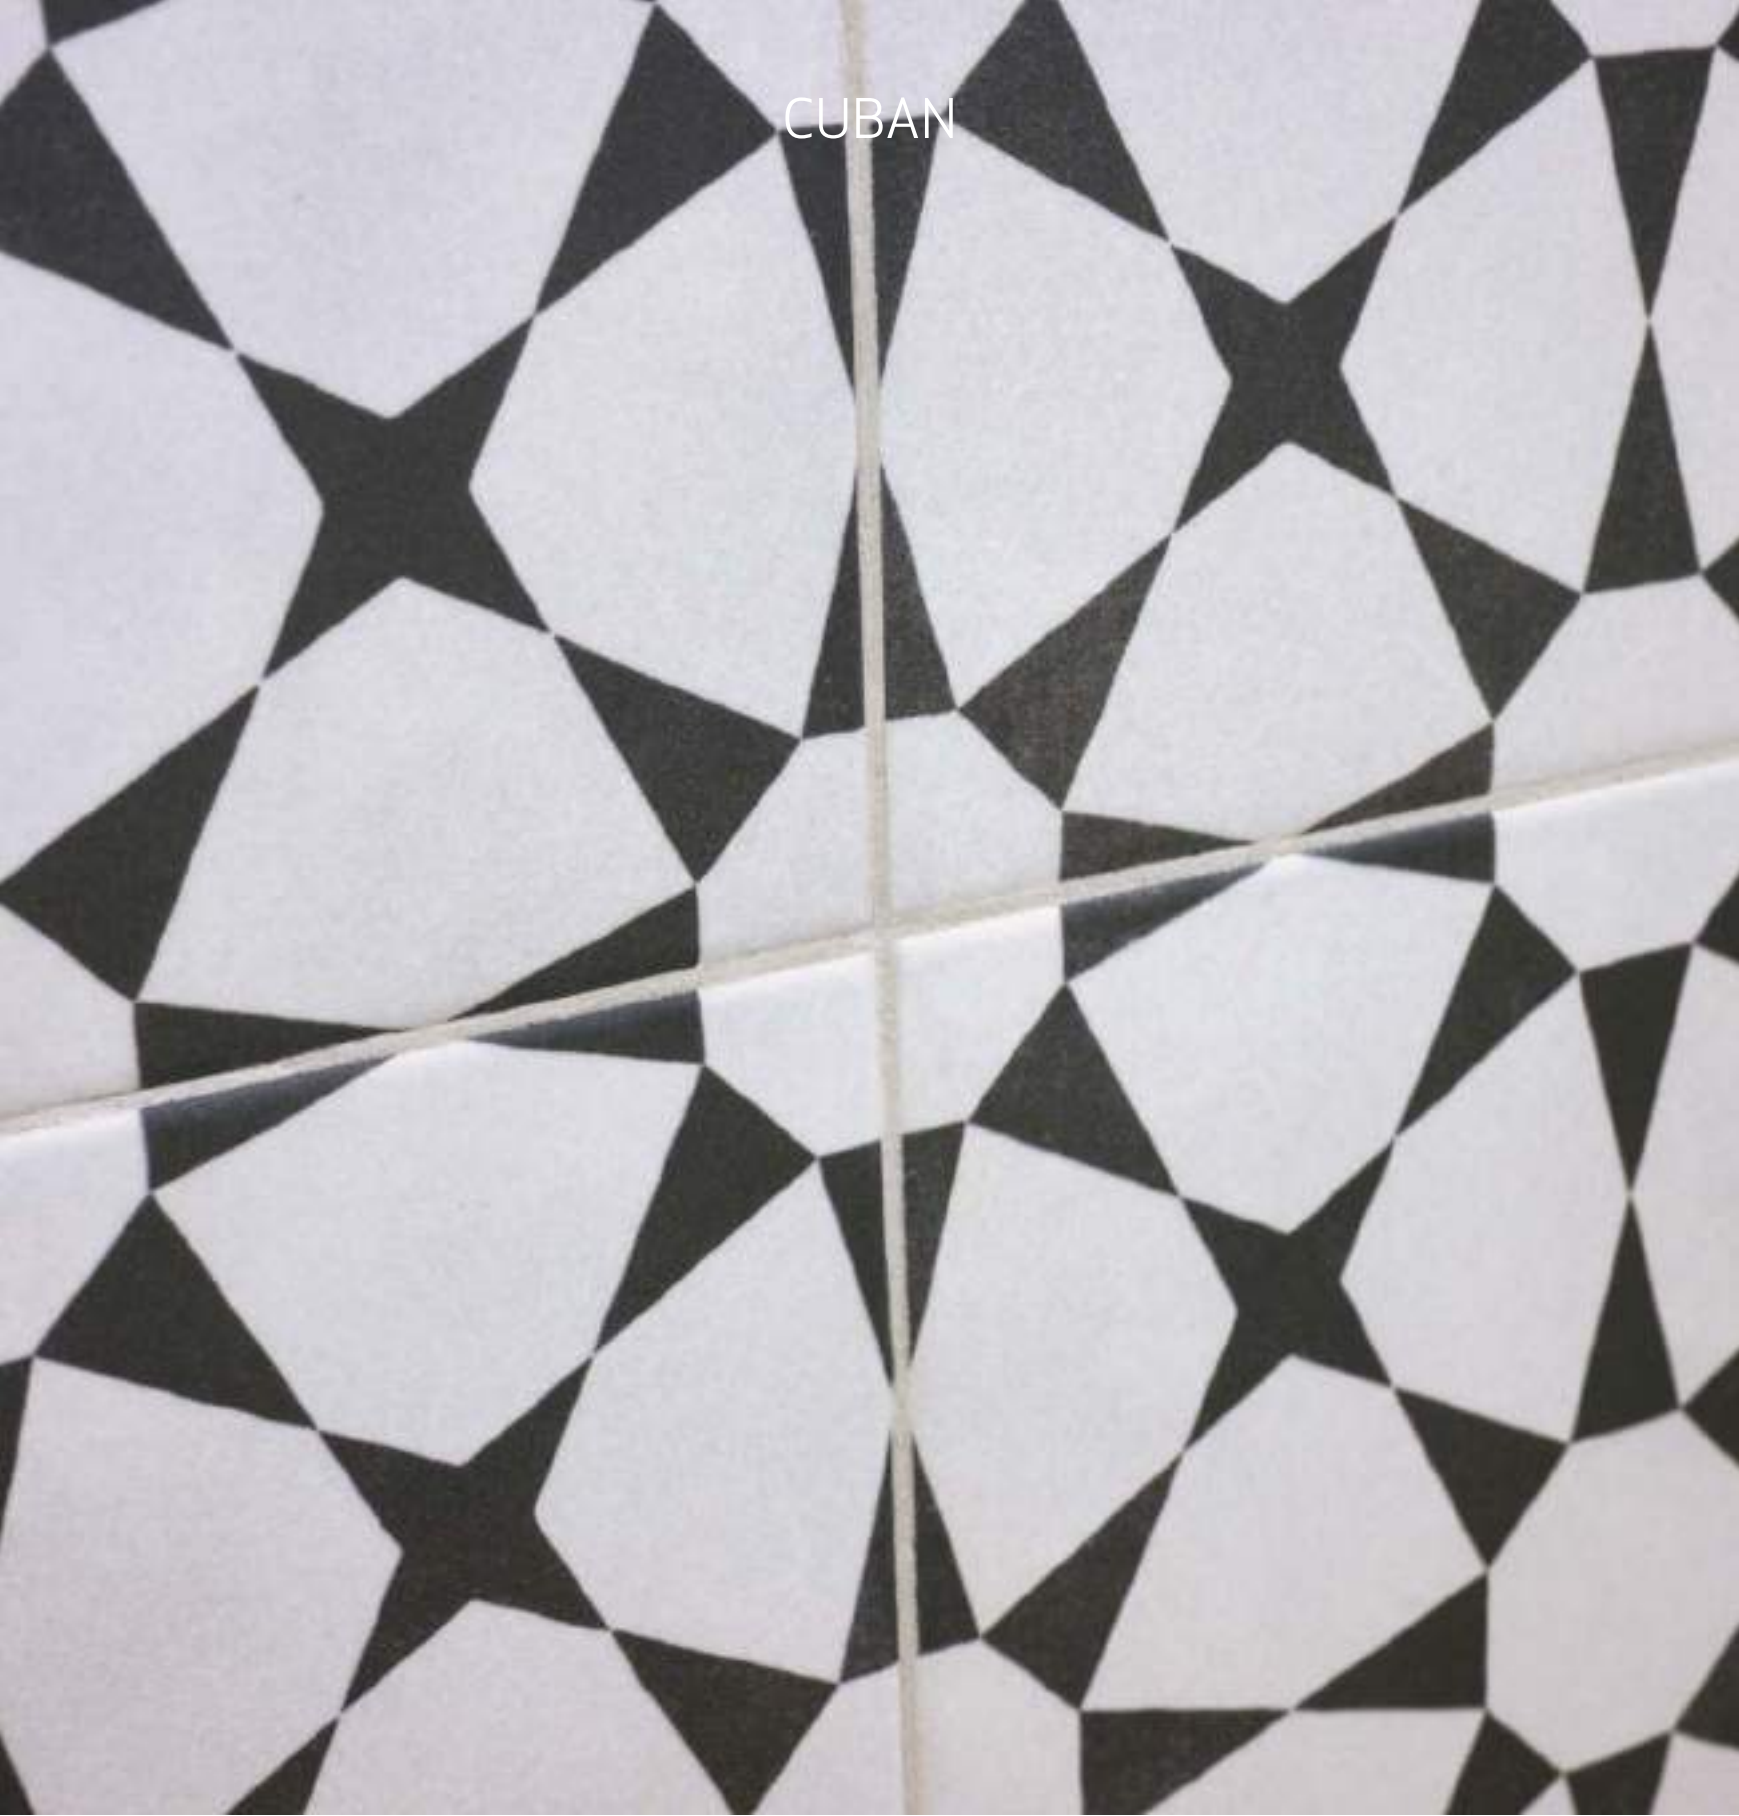

CUBAN collection perfectly matches with GLINT and RUBIK collections

## Porcelain Tile

22,3 x 22,3 cm — 8.7 x 8.7"

blue · green · taupe

DOHA is a new collection that combines an arabesque design with cutting-edge technology and innovation. Each tile in the collection pays tribute to the Arab world's rich culture, with designs that bring your senses to life, inspired by the intricate beauty so closely associated with the region. The tiles, made with **LAYER TECH** and **SHAPED TECH**, come in a combination of a matt and a glossy finish. With their traditional patterns, each 22.3x22.3 porcelain tile has a unique tale to tell, perfect for creating settings with a blend of modernity and artisanal charm. DOHA comes in a choice of warm and cold colours that capture the warmth of the desert and the coolness of a starry night. The collection can easily be combined with others, one good example being the LAND collection.

DOHA es la nueva colección que combina diseño arabesco con la última tecnología e innovación. Es una experiencia que celebra la riqueza cultural árabe en cada azulejo. DOHA despierta los sentidos con sus diseños inspirados en la intrincada belleza de la región. Esta colección marca un hito al combinar las revolucionarias tecnologías **SHAPED** y **LAYER TECH** de Harmony. Cada azulejo porcelánico, en formato 22,3x22,3 cm cuenta una historia única con patrones geométricos, creando un ambiente que fusiona la tradición y la modernidad. La paleta cromática de DOHA es un despliegue de tonos cálidos y fríos que capturan la esencia de la calidez del desierto y la frescura de las noches estrelladas. Desde tonalidades tierra hasta azules que combinan a la perfección con diferentes colecciones de Harmony destacando entre ellas LAND.

## Porcelain Tile

22,3 x 22,3 cm — 8.7 x 8.7"

*silver · green · blue*

Collection inspired by traditional cement tiles, takes its name from the capital of the island of Cuba, where these tiles were traditionally used in many buildings. HAVANA comes in a 22.3x22.3 cm format in different shades of white, grey, blue and green, with geometrical shapes or other motifs that can be combined to create continuous patterns. A new vision of cement tiles, with a myriad of subtle nuances.

Colección de inspiración hidráulica toma su nombre de la capital cubana donde esta tipología de producto decora tradicionalmente muchos de sus interiores. HAVANA, en formato 22,3x22,3 cm, trabaja la gama cromática de blancos, grises, azules y verdes destonificados en formas geométricas u ornamentales que permiten realizar composiciones en continuidad. Una nueva visión de la tendencia hidráulica con todo lujo de detalles.

HAVANA collection perfectly matches with RABAT collection

## Porcelain Tile

22,3 x 22,3 cm — 8.7 x 8.7"

yellow · clay · taupe

With a Mediterranean character, the LLEVANT collection is born with a traditional design. Each tile in the collection tells a different story, inspired by the rich local culture and traditions. With its intricate patterns and vibrant colors, the 22.3x22.3 cm porcelain tiles of LLEVANT evoke the beauty of the sunrise over the sea and the warmth of the old houses in the region. Timelessly charming, LLEVANT combines its artisanal design with innovation. Thanks to **LAYER TECH** technology, it offers a combination of gloss and matte, giving the collection a distinctive artistic touch.

De carácter mediterráneo, nace la colección LLEVANT con un diseño tradicional. Cada azulejo de la colección cuenta una historia diferente, inspirada en la rica cultura y tradiciones locales. Con sus patrones intrincados y colores vivos, los azulejos porcelánicos en formato 22,3x22,3 cm de LLEVANT evocan la belleza del amanecer sobre el mar y la calidez de las casas antiguas de la región. De encanto atemporal, LLEVANT combina su diseño artesanal con la innovación. Gracias a la tecnología **LAYER TECH**, nos ofrece una combinación de brillo y mate, otorgando a la colección un toque artístico distintivo.

## Porcelain Tile

22,3 x 22,3 cm — 8.7 x 8.7"

taupe · clay · green

This collection, with strong reminiscences of traditional pottery, stands out for the charming floral pattern on each of its tiles, inspired by nature's lush beauty. MAYARI brings a soothing, refreshing feel to living spaces, with a pattern available in a choice of different colours that can be mixed and matched as you wish to suit your own personal tastes. MAYARI's smooth matt finish adds a refined, subtle elegance to each of the tiles, perfect for creating relaxing, welcoming backdrops. Thanks to the use of **LAYER TECH** technology, a subtle grit effect has been added to the collection, giving the tiles a sense of depth and texture with chic, distinctive end results. This 22.3x22.3 porcelain tile collection features a total of 3 different models, with a design equally suitable for walls and floors.

Colección inspirada en la cerámica tradicional, se distingue por sus cautivadores motivos florales que adornan cada pieza. Diseño inspirado en la exuberante belleza de la naturaleza, aporta un toque de frescura a cualquier espacio. Disponible en tres colores, con formato 22,3x22,3 cm porcelánico, permite crear composiciones y combinaciones personalizadas, tanto en pavimento como en revestimiento, adaptándose al estilo y preferencias requeridas. El acabado mate de MAYARI es suave al tacto generando una sensación de calidez y serenidad. Combinado con la tecnología **LAYER TECH** utilizada en los diseños florales, agrega una sutil granilla creando una profundidad y textura en acabado brillo, que aporta un toque distintivo y sofisticado a cada pieza.

# Pangea

## Porcelain Tile

22,3 x 22,3 cm — 8.7 x 8.7"

*sand · clay · chocolate*

PANGEA evokes the origin of everything. Each tile in this collection carries a unique story: the story of the Earth itself. Inspired by the creation of the continents up to the present day, each piece represents a fragment of our origins. With its 22.3x22.3 cm format and clay-like appearance, the PANGEA collection combines warm tones and natural textures to become a symbol and chronicle of our roots. Available in three colors, PANGEA offers two distinctive decorations: one more classic with an elegant floral pattern, and another more contemporary with a modern dotted pattern. These details provide versatility and style, allowing each space to transform into a reflection of our rich terrestrial heritage. The PANGEA collection not only beautifies spaces but also tells the story of our planet, connecting us with the essence of nature and our origins.

PANGEA nos evoca el origen del todo. Cada azulejo de esta colección lleva consigo una historia única: la historia de la Tierra misma. Inspirada en la creación de los continentes hasta el presente, cada pieza representa un fragmento de nuestros orígenes. Con su formato de 22,3x22,3 cm y su aspecto de barro, la colección PANGEA combina tonos cálidos y texturas naturales para convertirse en un símbolo y una crónica de nuestras raíces. Disponible en tres colores, PANGEA ofrece dos decorados distintivos: uno más clásico con un elegante patrón floral, y otro más contemporáneo con un moderno patrón punteado. Estos detalles aportan versatilidad y estilo, permitiendo que cada espacio se transforme en un reflejo de nuestra rica herencia terrestre. La colección PANGEA no solo embellece los espacios, sino que también narra la historia de nuestro planeta, conectándonos con la esencia de la naturaleza y nuestros orígenes.

## Porcelain Tile

22,3 x 22,3 cm — 8.7 x 8.7"

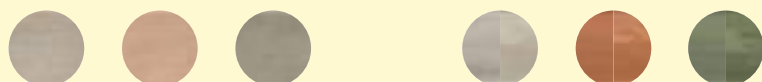

green

PROVENZA is a ceramic collection that pays tribute to the timeless charm of the Mediterranean. In a 22.3 x 22.3 cm format, each piece evokes sun-drenched landscapes through delicate floral and ornamental designs inspired by regional traditions. Its rich, warm color palette captures the glow of the Mediterranean sun and the serenity of its landscapes, allowing for the creation of inviting spaces full of character. Whether you're looking to add warmth or a refreshing touch, PROVENZA adapts seamlessly to every style and preference. The collection includes three carefully selected exclusive designs and stands out for its versatility: suitable for both floor and wall applications, it offers total freedom to create unique, elegant interiors with a strong personality.

PROVENZA es una colección cerámica que rinde homenaje al encanto atemporal del Mediterráneo. En formato 22,3 x 22,3 cm, cada pieza evoca paisajes bañados por el sol a través de delicados diseños florales y ornamentales inspirados en la tradición de la región. Su paleta cromática, rica en tonos cálidos, transmite la calidez del sol mediterráneo y la calma de sus paisajes, permitiendo crear espacios acogedores con carácter propio. Ya sea para aportar frescura o calidez, PROVENZA se adapta a cada estilo y preferencia. La colección se compone de 3 exclusivas referencias cuidadosamente seleccionadas, y destaca por su versatilidad: apta tanto para pavimentos como para revestimientos, ofrece libertad total para diseñar ambientes únicos, con personalidad y elegancia.

# Sirocco

## Porcelain Tile

22,3 x 22,3 cm — 8.7 x 8.7"

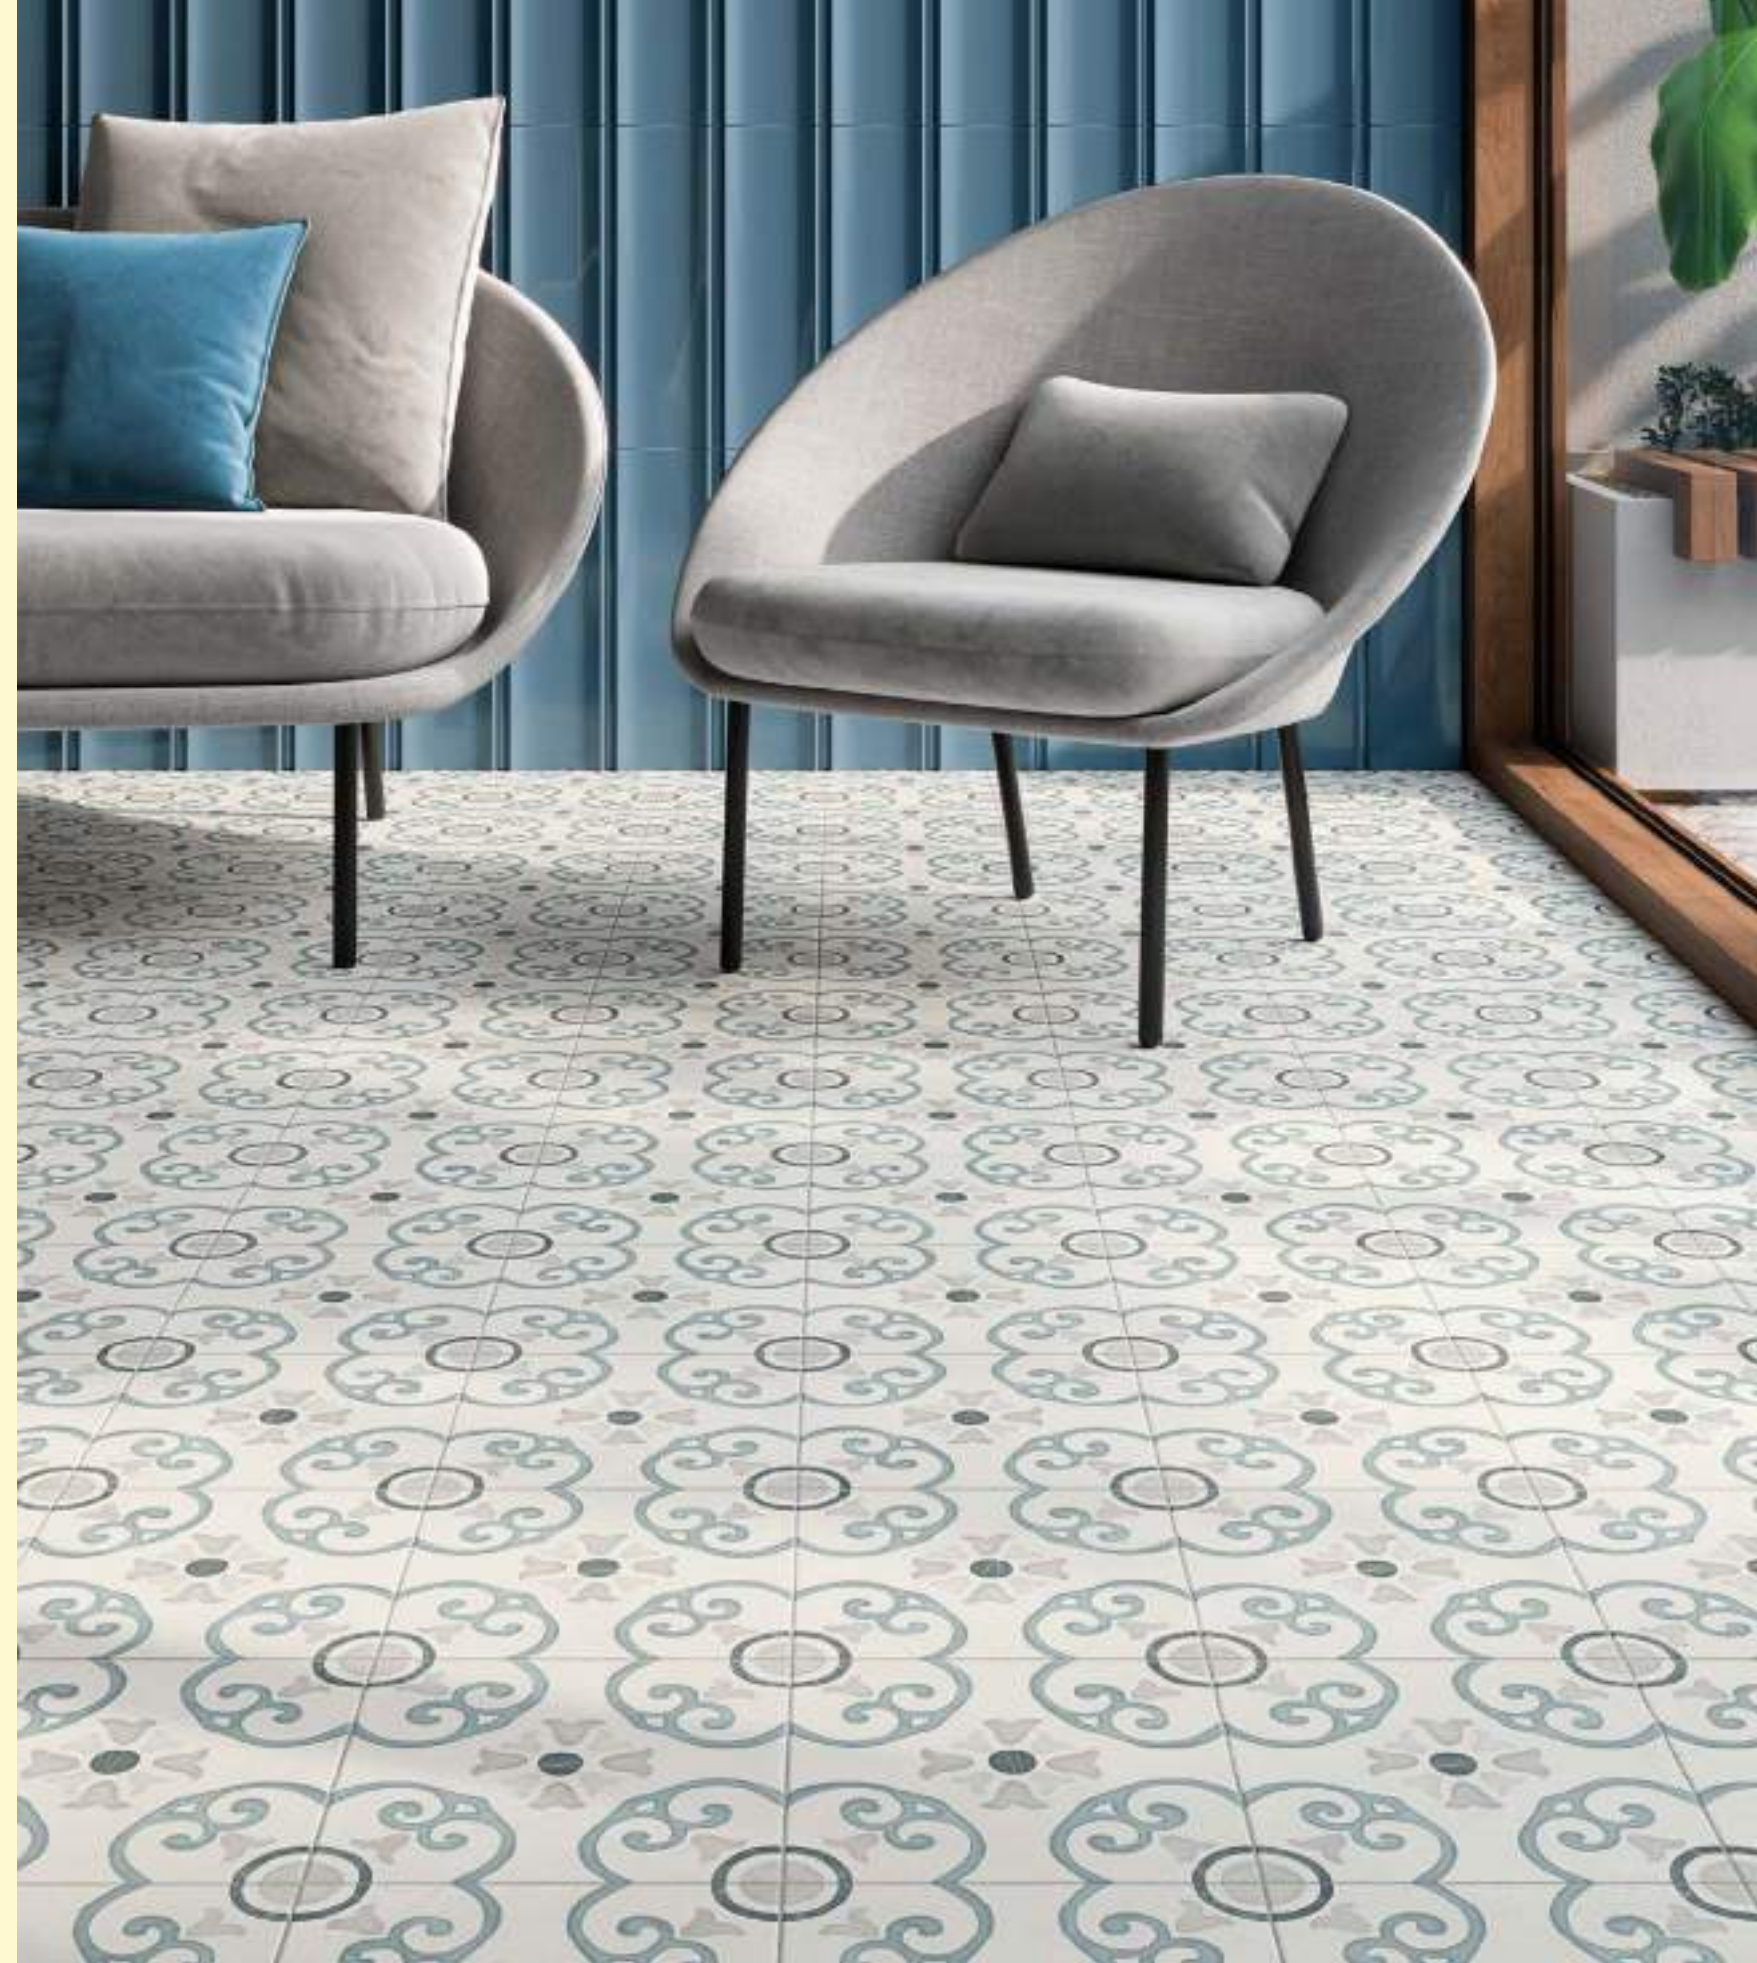

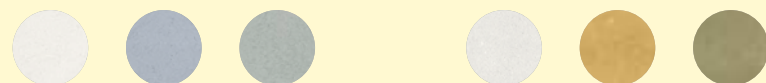

blue · green

Inspired by the Mediterranean southeast wind from the Sahara, Sirocco's artisanal-looking design features a mix of organic and ornamental motifs in shades of blue and green. The porcelain tile collection features 8 models in a 22.3x22.3 cm format. Perfect for creating decorative wall and floor surfaces both indoors and out, including poolside areas, its design conjures up an artist's brushstrokes.

Inspirada en el viento del sudeste, propio del Mediterráneo y procedente del Sáhara. Colección que muestra un diseño artesanal mezclando patrones orgánicos y ornamentales en tonalidades azules y verdes. Un porcelánico en formato 22,3x22,3 cm con 8 referencias, nos ofrece un pavimento y revestimiento decorativo que simula trazados en realizados en pincel.

14,8x14,8 / 6 x 25 cm — 5.8x5.8" / 2.3x9.8"

*snow · white · green · blue*

LEGACY pays tribute to the traditional artisanal technique of overlapping reactive glazes, used in the 20th century to create exclusive, unique looking ceramics of different colours and intensities. The collection's 15x15 and 6x25 cm tiles, in a choice of Blue, Green, White and Snow, stand out for their shine, volume and sense of depth, making it one of the most refreshing, innovative wall tile collections.

Un homenaje a la antigua técnica de esmaltes reactivos superpuestos empleada durante el siglo XX. En formatos 15x15 y 6x25 cm. Artesanal y tradicional, su técnica genera piezas únicas y exclusivas de diferentes tonalidades, colores e intensidades. El brillo, el volumen y la sensación de profundidad de la pieza convierten a LEGACY en una de las colecciones más rompedoras para revestimientos con sus tonalidades Green, Blue, White y Snow

## Porcelain Tile

14,8 x 14,8 cm — 5.8 x 5.8"

white · blue · clay · cherry · green · gold

MAYOLICA expands with three new decorative proposals, offering greater diversity in design patterns while extending the chromatic range in a 14.8x14.8 cm format. Its neutral base serves as a versatile canvas, standing out for its subtle elegance, creating a serene and balanced atmosphere that easily adapts to a wide variety of styles and settings, providing a sense of calm and harmony. These designs capture the essence of nature, from the organic shapes of leaves to subtle patterns evoking the texture of tree bark. Each piece in the collection is a work of art in itself, bringing the magic of nature into your home. A distinctive feature of MAYOLICA is the granilla with suspended particles in each piece. This special technique adds depth and texture, creating a fascinating visual effect that enhances the beauty of the decorative designs and brings a unique touch to the collection. Each piece reflects craftsmanship and meticulous care, making it an exceptional choice for those seeking a distinctive touch in their space.

MAYOLICA se amplía con 3 nuevas propuestas decorativas, ofreciendo mayor diversidad en patrones de diseño así como ampliando la gama cromática en formato 14,8x14,8 cm. Su base neutra es un lienzo versátil, destaca por su sutil elegancia, creando una atmósfera serena y equilibrada que se adapta fácilmente a una amplia variedad de estilos y ambientes, brindando una sensación de calma y armonía. Estos diseños capturan la esencia de la naturaleza con formas orgánicas de las hojas hasta los patrones sutiles que evocan la textura de la corteza de los árboles. Cada pieza de la colección es una obra de arte en sí misma, que trae consigo la magia de la naturaleza a tu hogar. Una característica distintiva de MAYOLICA es la granilla con partículas en suspensión en cada pieza. Esta técnica especial añade profundidad y textura, creando un efecto visual fascinante que realza aún más la belleza de los diseños decorativos y aporta un toque único a la colección. Cada pieza es una expresión de artesanía y cuidado meticuloso, lo que la convierte en una elección excepcional para aquellos que buscan un toque distintivo en su espacio.

## Single Fired Floor Tile

12,5 x 12,5 cm – 5 x 5"

blue · green · anthracite

Inspired by traditional North-African ceramics, CASABLANCA stands out for its charming hand-crafted appearance. Thanks to its uneven edges and Mediterranean-style décors, this is a collection conspicuous for its warmth. Available in a 12.5x12.5 cm format, CASABLANCA's plain white field tile and 10 different décors can be combined in a multitude of different ways. Suitable for use on both walls and floors, its slightly aged appearance is conceived to blend in harmoniously with the rest of the home.

CASABLANCA se inspira en la cerámica tradicional característica del Norte de África. Se presenta con un aspecto totalmente artesanal, donde sus bordes irregulares junto con los decorados con esencia mediterránea dan un juego de calidez excepcional. Presentada en formato 12,5x12,5 cm e infinitas combinaciones gracias a sus 10 decorados diferentes acompañados de una base lisa, dan a CASABLANCA un toque de cerámica envejecida donde el uso tanto en pavimento como revestimiento ofrece la posibilidad de conseguir un espacio en perfecta armonía con el resto del hogar.

## Porcelain Tile

12,5 x 12,5 cm — 4.8 x 4.8"

*white · sand · clay · taupe · sage · green · blue · silver · anthracite*

RUBIK is a 12.3x12.3cm porcelain tile collection with a strong emphasis on colour. The distinguishing hallmark of these straight-edged, smooth matt tiles is their shade variation, affording all kinds of design potential. The 9 sophisticated colours that make up the collection are rich in subtle nuances, lending a distinctive personality. This can be further enhanced by the different combinations of tile joints that RUBIK allows for.

RUBIK nos propone una colección donde el color es el protagonista. Con un amplio abanico de posibilidades, presentamos una superficie lisa en acabado mate y bordes rectos, donde la variación de tonos marca la diferencia. Además, los 9 colores de los que se compone son ricos en matices, sofisticados y capaces de dotar de personalidad a cualquier ambiente. Las grandes alternativas de decoración se amplían con las diferentes combinaciones de juntas. RUBIK es un porcelánico de formato 12,3x12,3 cm.

RUBIK collection perfectly matches with AWEN collection

## Porcelain Tile

12,5 x 12,5 cm — 4.8 x 4.8"

*sand · blue · green · silver*

These porcelain tiles are inspired by traditional ones with Arab influences, like those found in Morocco or Southern Spain. The collection's handcrafted appearance evokes the skilled brushstrokes of a craftsman, with their movement and changing intensity of colour, in a design with a mix of organic and ornamental motifs. Available in a new 12.3x12.3 cm porcelain tile format, Tanger is conspicuous for its slightly uneven surface and irregular sides, further enhanced by the collection's different colours.

Producto porcelánico que evoca a la influencia árabe en la cerámica tradicional, característica del sur de España y Marruecos. Su diseño artesanal nos traslada al trazo a pincel, generando cierta direccionalidad y variación de color. Se trata de una mezcla de patrones orgánicos y ornamentales. La colección presenta un formato nuevo para la firma: 12,3x12,3 cm porcelánico. De acabado irregular tanto en la superficie como en el contorno y de gran combinación gracias a sus diferentes tonalidades.

## Porcelain Tile

10,7 x 10,7 cm — 4.21 x 4.21"

white · sand · clay · chocolate

AFRA is a ceramic collection that celebrates the essence of different lands, capturing rich artisanal traditions in each piece. With its 10.7x10.7 cm format and zellige appearance, AFRA emulates the charm of handcrafted, kiln-fired clay. The straight edges and matte finish of each tile reflect the authentic beauty of traditional ceramic techniques. Available in four colors, AFRA offers a versatile palette that can transform any space into a reflection of the diversity and cultural richness of our world. The name "AFRA" symbolizes this connection with different lands, evoking stories and meanings interwoven in each tile. The AFRA collection not only provides a unique and artisanal aesthetic but also encapsulates the tradition and profound significance of our cultural roots. Each piece is an expression of earth, history, and art, inviting us to create spaces filled with authenticity and character.

AFRA es una colección cerámica que celebra la esencia de diferentes tierras, capturando la rica tradición artesanal en cada pieza. Con su formato de 10,7x10,7 cm y su aspecto de zellige, AFRA emula el encanto del barro cocido artesanal. Los bordes rectos y el acabado mate de cada azulejo reflejan la auténtica belleza de las técnicas cerámicas tradicionales. Disponible en cuatro colores, AFRA ofrece una paleta versátil que puede transformar cualquier espacio en un reflejo de la diversidad y la riqueza cultural de nuestro mundo. El nombre "AFRA" simboliza esta conexión con diferentes tierras, evocando historias y significados que se entrelazan en cada azulejo. La colección AFRA no solo aporta una estética única y artesanal, sino que también encapsula la tradición y el significado profundo de nuestras raíces culturales. Cada pieza es una expresión de la tierra, la historia y el arte, invitándonos a crear espacios llenos de autenticidad y carácter.

## Porcelain Tile

10,7 x 10,7 cm — 4.21 x 4.21"

white · sand · gold · mint · sage · green · petrol

Inspired by the streets of Marrakech, the SAMIRA collection is born, featuring a 10.7x10.7 cm format and a glossy handcrafted zellige appearance with straight edges and porcelain tile. This collection is a blend of various traditional tile-making techniques, such as zellige, and a medley of seven vibrant colors that stand out for their natural and unique richness of kiln-fired clay. Each piece in the SAMIRA collection carries the history of Moroccan craftsmanship and tradition, conveying the passion and care with which it is created. With its exotic charm, the SAMIRA collection becomes a symbol of Morocco's rich cultural heritage, inspiring artists and designers worldwide to explore the beauty and diversity of Mediterranean Oriental art. SAMIRA not only beautifies spaces with its vibrant tones and glossy finish, thanks to LAYER TECH technology, but also connects each environment with the essence and history of Marrakech, offering a visual and tactile experience that celebrates the authenticity and legacy of Moroccan art.

Inspirada en las calles de Marrakech, nace la colección SAMIRA, con un formato de 10,7x10,7 cm y un aspecto de zellige artesanal de brillo deslumbrante y cantos rectos en porcelánico. Esta colección es una mezcla de diferentes técnicas tradicionales en la fabricación de baldosas, como el zellige, y una miscelánea de siete colores vibrantes que destacan por la naturalidad y riqueza única del barro cocido. Cada pieza de la colección SAMIRA lleva consigo la historia de la artesanía y la tradición marroquí, transmitiendo la pasión y el cuidado con que es creada. Con su encanto exótico, la colección SAMIRA se convierte en un símbolo de la rica herencia cultural de Marruecos, inspirando a artistas y diseñadores de todo el mundo a explorar la belleza y la diversidad del arte oriental mediterráneo. SAMIRA no solo embellece los espacios con sus tonos vibrantes y acabado brillante, gracias a la tecnología **LAYER TECH**, sino que también conecta cada ambiente con la esencia y la historia de Marrakech, ofreciendo una experiencia visual y táctil que celebra la autenticidad y el legado del arte marroquí.

## Porcelain Tile

6 x 24,6 cm — 2.3 x 9.7"

white · sand · taupe · clay · green · blue · anthracite

Collection's natural finish lends the tiles a highly original, authentic air. When the coloured field tiles are combined with the décors, a unique visual impact can be made, conjuring up all the careful craftsmanship of bygone times. Attention has been paid to the finest of details, giving the impression of tiles created by an expert craftsman. One distinguishing feature of LAGOON is its subtle, eye-catching shade variation. This lends depth and texture to the surface of the tiles, enhancing the delicate hues of the collection's neutral shades while also ensuring a versatile, sophisticated colour spectrum. It is available in a 6x24.6 cm format and in 7 colors ranging from soft and warm tones to darker and deeper shades, providing a wide variety of options to suit any design style. LAGOON can be mixed and matched with the MERAKI collection.

La colección destaca por su aspecto Natural, otorgando una sensación de autenticidad y originalidad a cada pieza. Al combinar bases de colores con piezas decorativas, se crea una experiencia visual única que evoca a la meticulosa artesanía de antaño. Cada detalle ha sido cuidadosamente creado para transmitir la sensación de haber sido moldeado por las manos de un experto artesano. Una de las características distintivas de LAGOON es su destonificación, un efecto sutil pero impactante que agrega profundidad y textura a cada superficie. Esta destonificación resalta los delicados matices de los tonos neutros presentes en la colección, creando una paleta de colores versátil y sofisticada. Se ofrece en formato 6x24,6 cm y en 7 colores que van desde tonos suaves y cálidos hasta tonos más oscuros y profundos, para obtener una amplia variedad de opciones y poder adaptarse a cualquier estilo de diseño. La colección combina a la perfección con MERAKI.

## Porcelain Tile

4,8 x 14,6 cm — 1.8 x 5.7"

white · clay · taupe · mint · aqua · grey

ELIPSE combines compact design and modern elegance in a 4.8x14.6 cm format that captivates at first glance. Featuring a porcelain gloss that highlights its sophistication and an ellipse-shaped relief that adds a subtle decorative touch, this collection is designed to transform any space. Available in tones of aqua, clay, grey, mint, taupe, and white, ELIPSE offers a contemporary solution that balances texture, color, and luminosity in perfect harmony.

ELIPSE combina diseño compacto y elegancia moderna en un formato 4,8x14,6 cm que cautiva a primera vista. Con un brillo porcelánico que resalta su sofisticación y un relieve en forma de elipse que añade un sutil toque decorativo, esta colección está diseñada para transformar cualquier espacio. Disponible en tonos aqua, clay, grey, mint, taupe y white, ELIPSE ofrece una solución contemporánea que equilibra textura, color y luminosidad en perfecta armonía.

ELIPSE collection perfectly matches with AMBER, SOROA, GLINT collections

## Porcelain Tile

4,6 x 18,4 cm — 1.81 x 7.24"

white · sand · pink · ocher · green · silver

LAND is characterized by its destonification, graphic diversity, and a wide tonal variety. Each tile is an artistic expression that captures the essence of nature, offering a rich and subtle color palette that adapts to any design style. Furthermore, this collection introduces a new exclusive format for Harmony, 4.5x18.5 cm, with a total of 6 colors that create a perfect combination with various collections, various collections as DOHA. Its size makes it an ideal product for experimenting with different laying patterns, giving each space a distinctive character. Suitable for both flooring and cladding, it provides a greater number of possibilities.

LAND se caracteriza por su destonificación, diversidad gráfica y gran variedad tonal. Cada azulejo es una expresión artística que captura la esencia de la naturaleza, ofreciendo una paleta de colores rica y sutil que se adapta a cualquier estilo de diseño. Esta colección además, presenta un nuevo formato exclusivo para Harmony, 4,5x18,5 cm con un total de 6 colores que crean una combinación perfecta con diversas colecciones, como DOHA y PATTERNS. Su tamaño lo convierte en un producto ideal para experimentar con diferentes patrones de colocación dando así un carácter diferente a cada espacio. Apta tanto para pavimento como revestimiento, nos ofrece un mayor número de posibilidades.

LAND collection perfectly matches with DOHA collection

## White body Tile

20 x 40 cm — 7.8 x 15.7"

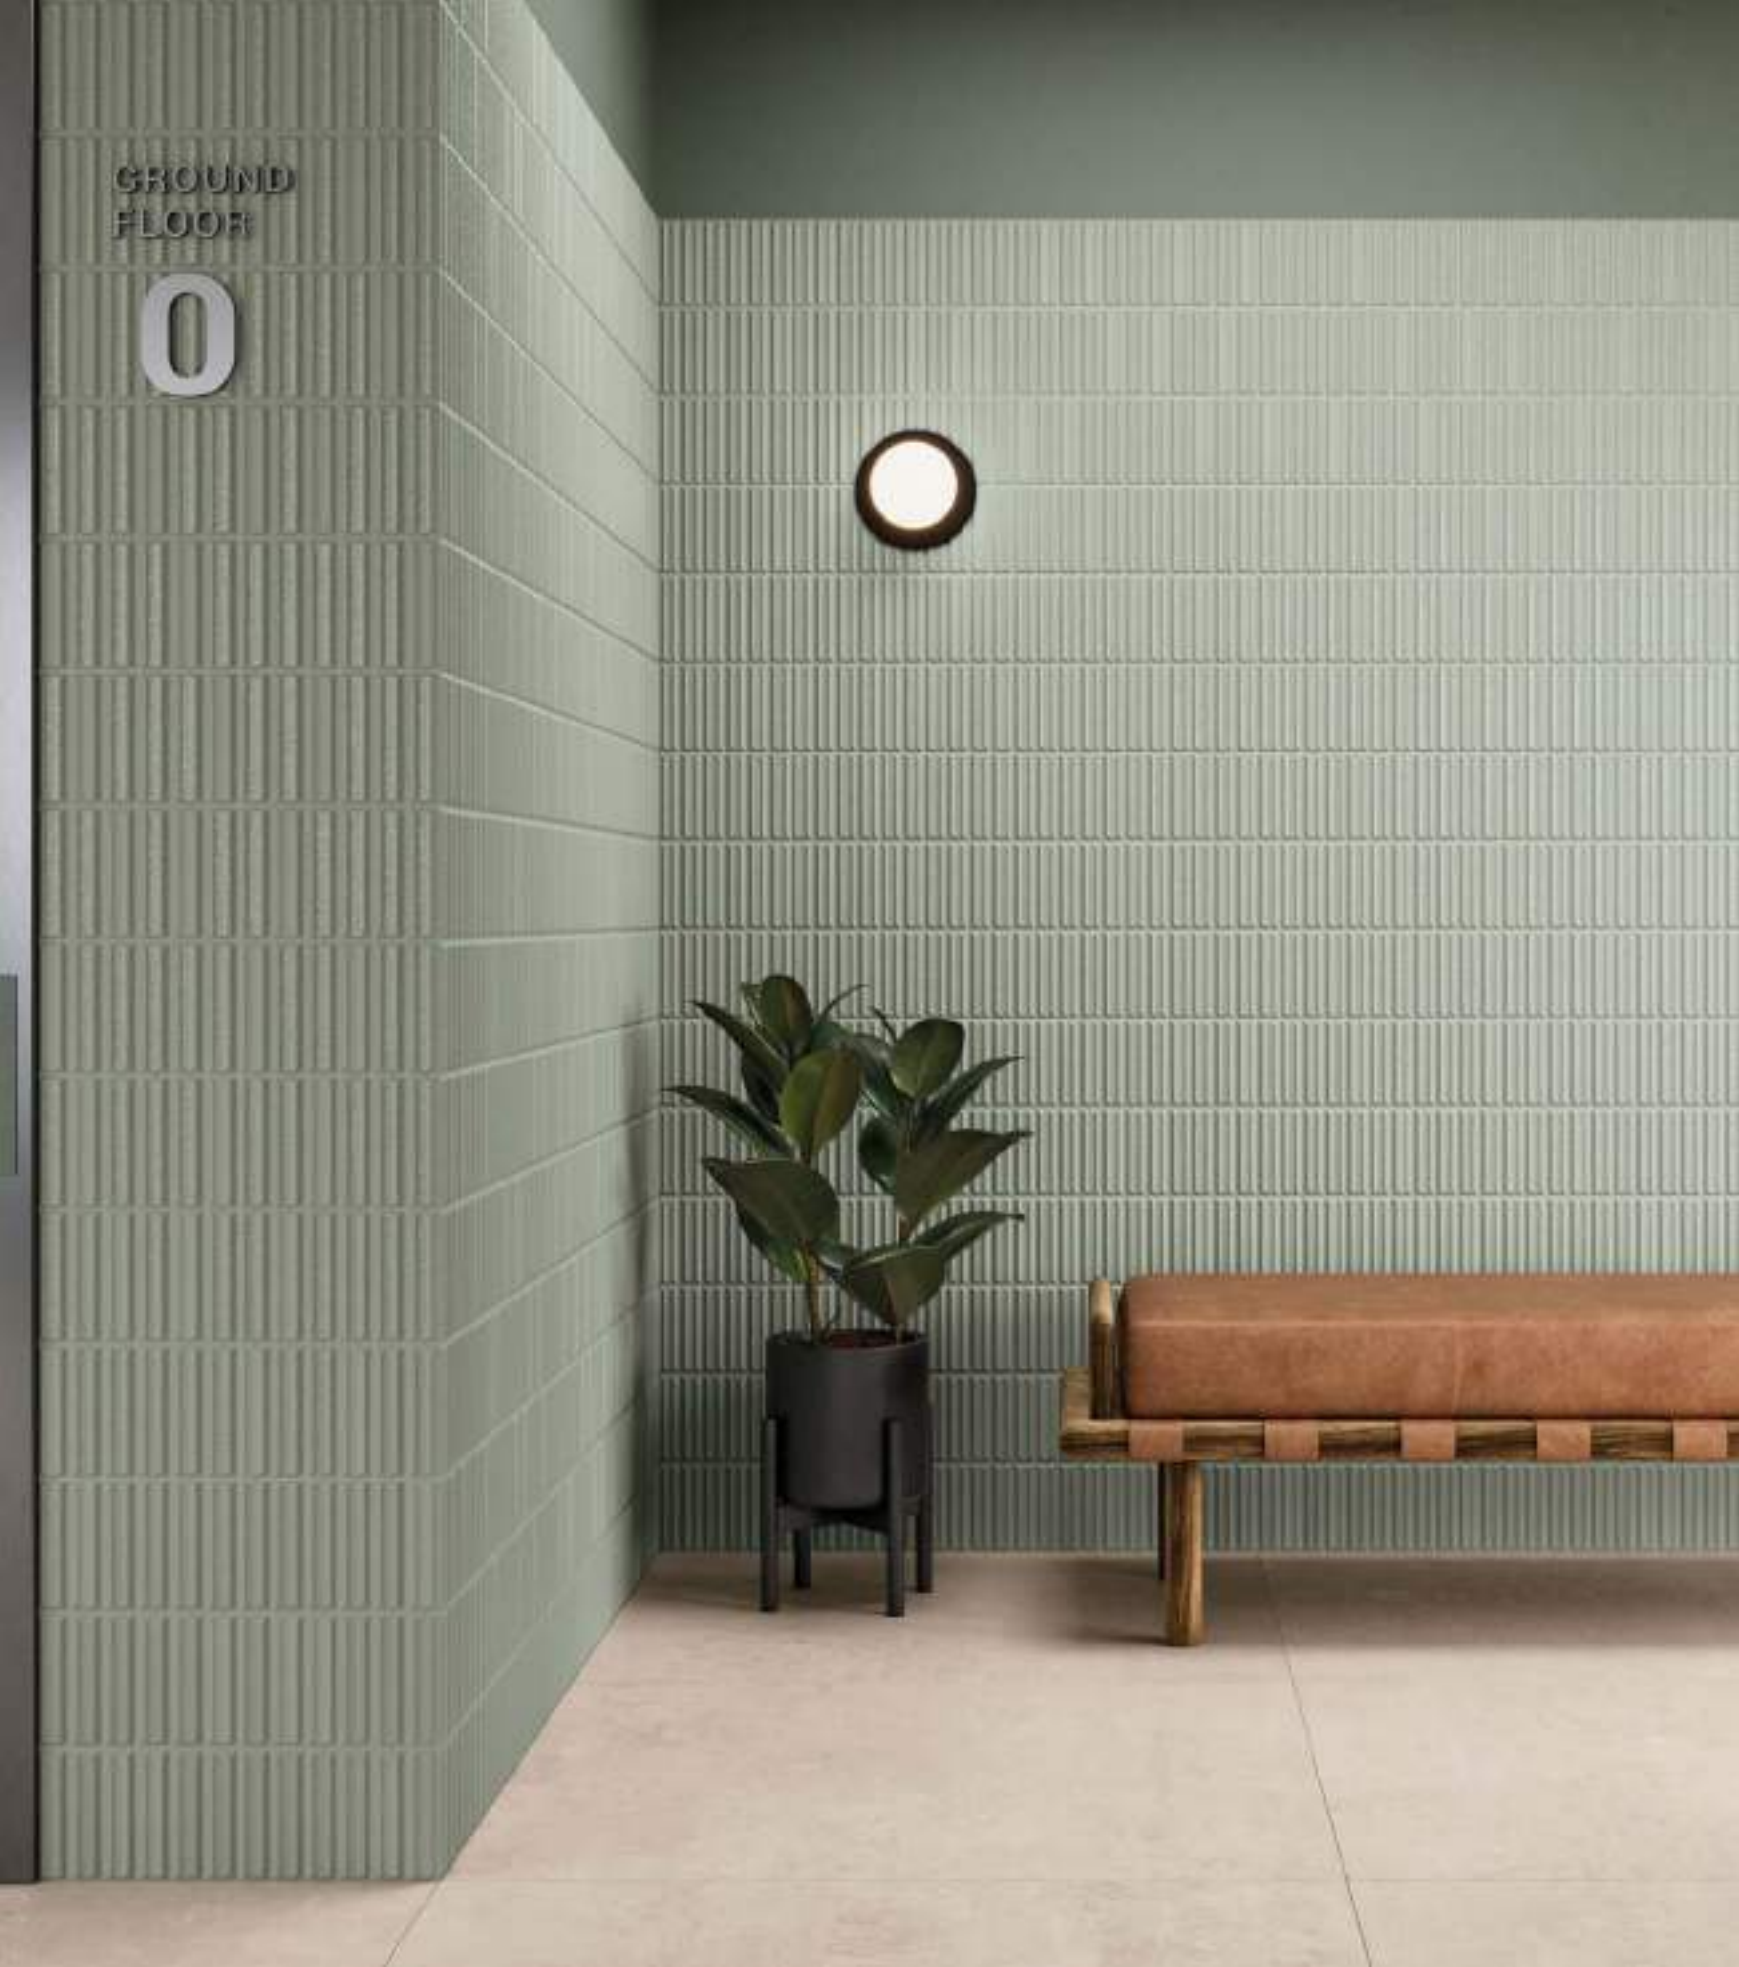

white · sand · taupe · green · silver · anthracite

MOVES is a 20x40 cm wall tile collection conspicuous for its grooved, relief-textured design. Thanks to the use of **DEEP TECH** technology, reliefs with a hitherto unimaginable depth have been achieved. **LAYER TECH** technology has also been used to ensure a mix of textures with wide-ranging effects. The collection comes in a choice of different colours, including several warm ones.

MOVES destaca por su diseño acanalado y por sus relieves. Se trata de un revestimiento en formato 20x40 cm, que gracias a su tecnología **DEEP TECH** nos permite alcanzar unos relieves hasta ahora imposibles de realizar. Así mismo, la tecnología **LAYER TECH** otorga a la pieza una mezcla de texturas generando efectos muy variados. Se presenta en diferentes colores, destacando los cálidos.

MOVES collection perfectly matches with MERAKI collection

# Rainbow

## White body Tile

5 x 25 cm — 4.96 x 9.84"

white · sand · gold · cherry · green · taupe

The RAINBOW collection is a tribute to color and texture. With a 5x25 cm format and rounded reliefs that evoke the softness of a rainbow, this series stands out for its dynamic and vibrant design. Its shades — cherry, gold, green, sand, taupe, and white — offer endless combinations, ideal for projects full of personality. RAINBOW transforms walls into true works of art thanks to its subtle details and play of light.

La colección RAINBOW es un homenaje al color y la textura. Con un formato 5x25 cm y relieves redondeados que evocan la suavidad de un arcoíris, esta serie destaca por su diseño dinámico y vibrante. Sus tonalidades — cherry, gold, green, sand, taupe y white — ofrecen infinitas combinaciones, ideales para proyectos llenos de personalidad. RAINBOW transforma paredes en auténticas obras de arte gracias a sus detalles sutiles y juego de luces.

## White body Tile

6 x 24,6 cm — 2.3 x 9.7"

white · sand · brown · green · blue · silver

BARI is inspired by traditional tile-making techniques, with tiles in a 6x24.6 format whose uneven, slightly concave surface evokes all the charm of hand-crafted ones. Its shine, rich patterns and traditional local colours conjure up the shores of the Mediterranean Sea. The collection is rounded off by a décor in a choice of 6 colours, whose embossed surface, in subtly varying hues, fits in harmoniously with the rest of the collection, adding to its decorative appeal.

Colección que recoge y reproduce técnicas de fabricación de la cerámica tradicional. Una base con superficie irregular y ligeramente cóncava evoca el acabado artesanal del producto en un formato de 6x24,6. El brillo de las piezas, su riqueza gráfica, así como los colores propios de la zona, nos transportan a orillas del Mediterráneo. La colección se completa con una pieza decorativa, con un relieve degradado que le confiere al conjunto un mayor valor decorativo manteniendo la armonía en 6 tonalidades diferentes.

## White body Tile

20 x 20 cm — 7.9 x 7.9"

white · gold · cherry · sand · green · taupe

The CRISP collection redefines elegance with a design inspired by the iconic kit kat tile. In a 20x20 cm format, its carefully curated palette — white, gold, cherry, sand, green, and clay —aligns with the latest design trends, bringing versatility and sophistication to any space. Perfect for those seeking a modern and minimalist finish, CRISP combines clean lines with an appearance reminiscent of traditional ceramics, emphasizing the subtle tonal variations between the bars and allowing for the creation of unique, character-filled spaces.

La colección CRISP redefine la elegancia con un diseño inspirado en el icónico azulejo tipo kit kat. En formato 20x20 cm, su paleta cuidadosamente seleccionada — white, gold, cherry, sand, green y clay — se alinea con las últimas tendencias de diseño, aportando versatilidad y sofisticación a cualquier espacio. Perfecta para quienes buscan un acabado moderno y minimalista, CRISP combina líneas limpias con una apariencia que evoca la cerámica tradicional, destacando la sutil destonificación entre las diferentes barras y permitiendo crear ambientes únicos y llenos de carácter.

CRISP collection perfectly matches with AMBER, SOROA collections  
Colección CRISP coordina con las colecciones AMBER, SOROA

# Dyroy

## White body Tile

6,5 x 20 / 10 x 10 cm — 2.5 x 7.8" / 4 x 4"

*white · aqua · aubergine · blue · green · grey*

DYROY is inspired by the northern lights. A collection in the characteristic colours of nature that can be admired in northern Norway, adapted to an artisanal-look collection of ceramic tiles. The range of tones and patterns featured in this collection recreate the shifting lights and colours of the Arctic nights. Available in 10x10 and 6.5x20 cm formats, it allows for multiple layouts. .

Inspirada en las auroras boreales nace DYROY. Una colección que adopta los colores que nos ofrece la naturaleza en el norte de Noruega, adaptados a una colección cerámica de apariencia artesanal. Los diferentes tonos y la variedad gráfica de la colección, generan el movimiento de luz y color que nos ofrece la noche del ártico. Disponible en formato 10x10 y 6,5x20 cm, permite múltiples opciones de colocación.

DYROY collection perfectly matches with SAMIRA and RUBIK collections  
Colección DYROY coordina con las colecciones SAMIRA y RUBIK

## White body Tile

6,5 x 20 / 10 x 10 cm — 2.5 x 7.8" / 4 x 4"

*white · sand · taupe · pink · red · sky · aqua · green · grey*

RIAD is a wall tile collection inspired by the hospitality and local colour of typical Moroccan guesthouses. A collection that stands out for its bright colours and the handcrafted appeal of its rich variety of shades and uneven surface, RIAD comes in a 10x10 cm square format and 6.5x20cm rectangular one in a choice of 9 colours. Great for mixing and matching with our SAHN collection.

La hospitalidad y el marcado color local de los alojamientos típicos marroquíes inspiran la colección de revestimiento RIAD. Colores brillantes y aspecto artesanal evocado tanto por la rica variedad en sus tonos como por su irregular superficie. Disponible en formato cuadrado 10x10 cm y rectangular 6,5x20 cm, y 9 variedades tonales diferentes. Combinable con nuestra colección SAHN.

RIAD collection perfectly matches with SAHN collection  
Colección RIAD coordina con la colección SAHN

# Sahn

## White body Tile

6,5 x 20 / 10 x 10 cm — 2.5 x 7.8" / 4 x 4"

*white · sand · taupe · pink · red · sky · aqua · green · grey*

SAHN is a large and colourful collection reminiscent of the handcrafted ceramic tiles that were a traditional feature of Arab-style interior courtyards. A wide range of patterns and colour combinations are the hallmarks of this collection. Available in nine colours with a matt finish, it comes in a choice of two formats: 10x10 and 6.5x20 cm. Great for mixing and matching with our RIAD collection.

SAHN, una colección amplia y colorista que nos invita a recuperar el trabajo de cerámica artesanal tan característico de los patios interiores de las construcciones de influencia Árabe. Variedad gráfica y mezcla de diferentes tonalidades son una de las principales características de esta colección. Presentada en nueve colores en acabado mate, está disponible en dos formatos diferentes 10x10 y 6,5x20 cm. Combinable con nuestra colección RIAD..

SAHN collection perfectly matches with RIAD collection  
Colección SAHN coordina con la colección RIAD

TECNOLOGÍAS

At HARMONY we strive to keep at the forefront, both in technology and in applications of new products and services conceived to impress customers and to guarantee high added value.

En HARMONY trabajamos para estar a la vanguardia en tecnología y aplicaciones de nuevos productos y servicios con un alto valor añadido que consigan sorprender y satisfacer a nuestros clientes.

SHAPED

Real precision

Reliefs are created via digital technology perfectly coordinated with graphic printing to generate the most natural pieces ever seen in ceramic.

Precisión real

Relieves creados de manera digital perfectamente coordinados con la impresión gráfica para generar las piezas más naturales nunca vistas en cerámica.

RAINBOW TECH

Color at the highest level

This revolutionary technology opens up the available color spectrum and boosts intensity to extraordinary new heights. With a wider range and more vibrant hues, your projects will stand out for their unmatched quality and depth.

Color al más alto nivel.

Esta revolucionaria tecnología amplía el espectro cromático disponible y eleva la intensidad del color a nuevas cotas. Gracias a una gama más amplia y tonos más vibrantes, tus proyectos destacarán por su calidad y profundidad incomparables.

DEEP TECH

Extraordinary relief

Relief surfaces can be created with an extraordinary depth, with reliefs as deep as 8 mm. This new technology opens up new broad-ranging decorative potential.

Relieve extraordinario.

Permite realizar relieves con un nivel de profundidad extraordinario, llegando hasta los 8 mm de relieve. Esta nueva tecnología abre un universo de posibilidades decorativas.

# Regulation

## NORMATIVA

### TECHNICAL INFORMATION

The **UNE-EN 14411** standard sets the technical characteristics and requirements that ceramic tiles must meet to be used as flooring and wall cladding. It also references the test methods (ISO 10545 standards) applicable for determining the characteristics included in this standard and verifying whether they comply with the established requirement.

For the application of this standard and to determine the requirements for compliance with the defined characteristics, tiles are divided into groups based on their water absorption:

| Dry-pressed ceramic tiles with water absorption |                    |
|-------------------------------------------------|--------------------|
| $E_b \leq 0.5\%$ ,                              | <b>GROUP BIa</b>   |
| $0.5\% < E_b \leq 3\%$                          | <b>GROUP BIb.</b>  |
| $3\% < E_b \leq 6\%$ ,                          | <b>GROUP BIIa</b>  |
| $E_b > 10\%$ ,                                  | <b>GROUP BIII.</b> |

### SLIP RESISTANCE

Currently, there is no consolidated testing method to determine slip resistance. There are several testing methods:

### UNE 41901 EX WET EN METHOD

In Spain, the CTE (Código Técnico de la Edificación) establishes the basic safety requirements that floors must meet depending on their location and characteristics. The Basic Document on Use and Accessibility Safety (DB SUA), Section SUA-1 Safety against the risk of falls, defines the slip resistance requirements that floors in residential, public, health, educational, commercial, administrative, and public assembly buildings must meet according to their slip resistance  $R_d$ .

| Slip Resistance $R_d$ | Class |
|-----------------------|-------|
| $R_d < 15$            | 0     |
| $15 < R_d < 35$       | 1     |
| $35 < R_d < 45$       | 2     |
| $R_d > 45$            | 3     |

The value of  $R_d$  is determined by the pendulum test described in the testing standard UNE 41901 EX.

The following table describes the required class that floors must have depending on their location:

| Zone                                                                                                                                                                                                        | Class |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------|
| <b>Dry indoor areas</b>                                                                                                                                                                                     |       |
| Surfaces with a slope less than 6%                                                                                                                                                                          | 1     |
| Surfaces with a slope equal to or greater than 6% and stairs                                                                                                                                                | 2     |
| <b>Indoor wet areas, such as entrances to buildings from the exterior (1), covered terraces, bathrooms, kitchens, etc.</b>                                                                                  |       |
| Surfaces with a slope less than 6%                                                                                                                                                                          | 2     |
| Surfaces with a slope equal to or greater than 6% and stairs                                                                                                                                                | 3     |
| Indoor areas where, in addition to water, there may be agents (grease, lubricants, etc.) that reduce slip resistance, such as industrial kitchens, slaughterhouses, parking lots, industrial use areas, etc | 3     |
| Outdoor areas. Pools (2)                                                                                                                                                                                    | 3     |

(1) Except when they are direct accesses for restricted use.

(2) In areas intended for barefoot users and in the bottoms of pools where the depth does not exceed 1.50 meters.

### INFORMACIÓN TÉCNICA

La norma **UNE-EN 14411** establece las características técnicas y los requisitos que deben de cumplir las baldosas cerámicas para ser utilizadas como pavimento de suelos y revestimiento de paredes. Asimismo, hace referencia a los métodos de ensayo (normas ISO 10545) aplicables para determinar las características incluidas en esta norma y verificar si cumplen o no con los requisitos establecidos.

Para la aplicación de esta norma y para determinar los requisitos para el cumplimiento de las características definidas, las baldosas se dividen en grupos en función de la absorción de agua que presenten:

| Baldosas cerámicas prensada en seco con una absorción de agua |                    |
|---------------------------------------------------------------|--------------------|
| $E_b \leq 0.5\%$ ,                                            | <b>GRUPO BIa</b>   |
| $0.5\% < E_b \leq 3\%$                                        | <b>GRUPO BIb.</b>  |
| $3\% < E_b \leq 6\%$ ,                                        | <b>GRUPO BIIa</b>  |
| $E_b > 10\%$ ,                                                | <b>GRUPO BIII.</b> |

### RESISTENCIA AL DESLIZAMIENTO

En la actualidad, no se dispone de un método de ensayo consolidado para determinar la resistencia al deslizamiento. Existen varios métodos de ensayo:

### UNE 41901 EX EN HÚMEDO

En España, el CTE (Código Técnico de la Edificación) establece las exigencias básicas de seguridad que deben cumplir los suelos en función de su localización y características. El Documento Básico Seguridad de Utilización y Accesibilidad (DB SUA), Sección SUA-1 Seguridad frente al riesgo de caídas, define los requisitos de resistencia al deslizamiento que deben cumplir los suelos de los edificios de uso residencial, público, sanitario, docente, comercial, administrativo y pública concurrencia conforme a su resistencia al deslizamiento  $R_d$ .

| Resistencia al deslizamiento $R_d$ | Clase |
|------------------------------------|-------|
| $R_d < 15$                         | 0     |
| $15 < R_d < 35$                    | 1     |
| $35 < R_d < 45$                    | 2     |
| $R_d > 45$                         | 3     |

El valor de  $R_d$  se determina mediante el ensayo del péndulo descrito en la norma de ensayo UNE 41901 EX.

En la siguiente tabla se describe la clase exigible que deben tener los suelos en función de su localización:

| Zona                                                                                                                                                                                                                           | Clase |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------|
| <b>Zonas interiores secas</b>                                                                                                                                                                                                  |       |
| Superficies con pendiente menor del 6%                                                                                                                                                                                         | 1     |
| Superficies con pendiente igual o mayor que el 6% y escaleras                                                                                                                                                                  | 2     |
| <b>Zonas interiores húmedas, tales como entradas a los edificios desde el exterior (1), terrazas cubiertas, baños, cocinas, etc</b>                                                                                            |       |
| Superficies con pendiente menor del 6%                                                                                                                                                                                         | 2     |
| Superficies con pendiente igual o mayor que el 6% y escaleras                                                                                                                                                                  | 3     |
| Zonas interiores donde, además de agua, pueda haber agentes (grasas, lubricantes, etc.) que reduzcan la resistencia al deslizamiento, tales como cocinas industriales, mataderos, aparcamientos, zonas de uso industrial, etc. | 3     |
| Zonas exteriores. Piscinas (2)                                                                                                                                                                                                 | 3     |

(1) Excepto cuando se trate de accesos directos de uso restringido.

(2) En zonas previstas para usuarios descalzos y en el fondo de los vasos, en las zonas en las que la profundidad no exceda de 1,50 m.

DIN 51130 and DIN 51097

The German standards DIN 51130 and DIN 51097 classify floors based on their slip resistance according to the ramp test method:

DIN 51130

Ramp method for shod feet. It establishes an R classification based on the angle of inclination ranging from R9 to R13, with R9 being the lowest value, defined as low slip resistance.

| Average incline angle (α) | Slip resistance |
|---------------------------|-----------------|
| 6° ≤ α < 10°              | R9              |
| 10° ≤ α < 19°             | R10             |
| 19° ≤ α < 27°             | R11             |
| 27° ≤ α < 35°             | R12             |
| 35° < α                   | R13             |

Depending on the R value or slip resistance, the following uses are recommended for floors:

| Slip Resistance | Description               | Recommended for                                                                                                                                      |
|-----------------|---------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------|
| R9              | High risk of slipping     | Dry indoor areas including indoor entrances. Not recommended for outdoor areas.                                                                      |
| R10             | Moderate risk of slipping | Dry indoor areas subject to occasional moisture such as bathrooms or garages.                                                                        |
| R11             | Low risk of slipping      | Outdoor areas and wet areas including industrial environments and entrances to residential or public buildings.                                      |
| R12             | Low risk of slipping      | Outdoor areas and wet areas such as entrances from the exterior, pathways, parking lots, pools. In indoor areas like professional kitchens, showers. |
| R13             | Low risk of slipping      | Outdoor areas and very wet areas such as pools, water parks. Also in industrial areas where working with liquids. Areas with high risk of slipping.  |

DIN 51097

Ramp method for barefoot feet. Slip resistance is classified as A, B, or C, with A being the lowest value.

| Average incline angle (α) | Slip resistance |
|---------------------------|-----------------|
| ≥ 12°                     | A               |
| ≥ 18°                     | B               |
| ≥ 24°                     | C               |

Depending on the R value or slip resistance, the following uses are recommended for floors:

| Slip Resistance | Description               | Suitable for                                    |
|-----------------|---------------------------|-------------------------------------------------|
| A               | High risk of slipping     | Dry areas for barefoot pedestrians              |
| B               | Moderate risk of slipping | Beach areas of pools and showers                |
| C               | Low risk of slipping      | Wet ramp areas, pool floors, and jacuzzi floors |

DIN 51130 y DIN 51097

Las normas alemanas DIN 51130 y DIN 51097 realizan una clasificación de los suelos en función de su resistencia al deslizamiento de acuerdo con el método de ensayo de la rampa:

DIN 51130

Método de la rampa para pies calzados. Establece una clasificación R en función del ángulo de inclinación que varía de R9 a R13, siendo R9 el menor valor, definido como baja resistencia al deslizamiento.

| Ángulo de inclinación medio (α) | Resistencia al deslizamiento |
|---------------------------------|------------------------------|
| 6° ≤ α < 10°                    | R9                           |
| 10° ≤ α < 19°                   | R10                          |
| 19° ≤ α < 27°                   | R11                          |
| 27° ≤ α < 35°                   | R12                          |
| 35° < α                         | R13                          |

En función del valor de R o de resistencia al deslizamiento, se recomiendan los siguientes usos para los suelos:

| Resistencia Deslizamiento | Descripción                   | Recomendado para                                                                                                                                                    |
|---------------------------|-------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| R9                        | Riesgo alto deslizamiento     | Zonas interiores secas incluidas las entradas interiores. No utilizar en zonas exteriores.                                                                          |
| R10                       | Riesgo moderado deslizamiento | Zonas interiores secas que están sujetas a humectación ocasional como baños o garajes.                                                                              |
| R11                       | Riesgo bajo deslizamiento     | Zonas externas y zonas húmedas incluidos los entornos industriales y entradas a los edificios de tipo residencial o públicos.                                       |
| R12                       | Riesgo bajo deslizamiento     | Zonas externas y zonas húmedas como entradas desde el exterior, caminos, aparcamientos, piscinas. En zonas interiores en cocinas profesionales, duchas.             |
| R13                       | Riesgo bajo deslizamiento     | Zonas externas y zonas muy húmedas como piscinas, parques acuáticos. También en zonas industriales que se trabaje con líquidos. Zonas de alto riesgo en resbalarse. |

DIN 51097

Método de la rampa para pies descalzos. La resistencia al deslizamiento se clasifica como A, B o C siendo A el menor valor.

| Ángulo de inclinación medio (α) | Resistencia al deslizamiento |
|---------------------------------|------------------------------|
| ≥ 12°                           | A                            |
| ≥ 18°                           | B                            |
| ≥ 24°                           | C                            |

En función del valor de R o de resistencia al deslizamiento, se recomiendan los siguientes usos para los suelos:

| Resistencia Deslizamiento | Descripción                   | Adecuado para                                                     |
|---------------------------|-------------------------------|-------------------------------------------------------------------|
| A                         | Riesgo alto deslizamiento     | Zonas secas de pies descalzos                                     |
| B                         | Riesgo moderado deslizamiento | Zonas de playa de piscinas y duchas                               |
| C                         | Riesgo bajo deslizamiento     | Zonas de rampas húmedas, suelos de piscinas y suelos de jacuzzis. |

BS 7976–2

In the United Kingdom, various associations and organizations have proposed a classification of floor safety based on slip resistance. This resistance is determined by assessing the Pendulum Test Value (PTV) using the pendulum test described in standard BS 7976-2. Depending on the PTV value, we have:

| PTV 96  | Risk of Slipping |
|---------|------------------|
| < 24    | High             |
| 24 - 35 | Moderate         |
| 36 - 64 | Low              |
| > 65    | Very Low         |

For **PTV** values **≥ +36**, floors are declared to have a low risk of slipping.

ANSI A 137.1

The Dynamic Coefficient of Friction (DCOF) is a measure of slip resistance conducted using a BOT-3000 tribometer according to the method described in the ANSI A 137.1 standard from the American National Standards Institute (ANSI).

According to this standard, indoor floors expected to be walked on while wet must have a minimum **DCOF** value of **>0.42**. Floors that do not meet this DCOF value are not limited to being placed in dry areas but in floors that remain dry while being walked on.

SURFACE ABRASION RESISTANCE

ISO 10545–7

For ceramic tiles intended for floor covering, the test is conducted according to the methodology defined in **ISO 10545-6**. The UNE-EN 14411 standard requires the declaration of the abrasion class and the number of revolutions. According to this standard, when required, the abrasion class can be declared according to Annex N (informative), which classifies glazed ceramic tiles according to their resistance to abrasion:

|              |                                       |
|--------------|---------------------------------------|
| <b>PEI 1</b> | Residential use with light traffic    |
| <b>PEI 2</b> | Residential use with moderate traffic |
| <b>PEI 3</b> | Commercial use with light traffic     |
| <b>PEI 4</b> | Commercial use with moderate traffic  |
| <b>PEI 5</b> | Commercial use with heavy traffic     |

ISO 10545–6

The UNE-EN 14411 standard specifies a minimum resistance to deep abrasion for all unglazed tiles (UGL), expressed as the maximum allowable volume of material removed after the completion of the test (in mm³).

The test is conducted according to the methodology defined in **ISO 10545-6**. The UNE-EN 14411 standard establishes a maximum value of volume of material loss (expressed in mm³) for unglazed tiles of Group BIa as 175 mm³. **( < 175 mm³ )**

BS 7976–2

En Reino Unido, diferentes asociaciones y organismos han planteado una clasificación de la seguridad de los suelos en función de la resistencia al deslizamiento. Esta resistencia se basa en determinar el valor del PTV (Pendulum Test Value) mediante el ensayo del péndulo descrito en la norma BS 7976-2. Según el valor del PTV tendremos:

| PTV 96  | Riesgo potencial de deslizamiento |
|---------|-----------------------------------|
| < 24    | alto                              |
| 24 - 35 | moderado                          |
| 36 - 64 | bajo                              |
| > 65    | muy bajo                          |

Para valores de **PTV** **≥ +36**, los suelos se declaran con bajo riesgo de deslizamiento.

ANSI A 137.1

El DCOF (Coeficiente de fricción dinámico) es una medida de la resistencia al deslizamiento que se realiza con un tribómetro BOT-3000 según el método descrito en la norma ANSI A 137.1 del Instituto Nacional Estadounidense de Estándares (ANSI).

Según esta norma, los suelos interiores sobre los que se prevé que se camine mientras están húmedos deben de tener un valor mínimo de **DCOF>0,42**. Los suelos que no cumplan con este valor de DCOF no están limitados a colocarse en zonas secas sino en suelos que se mantengan secos mientras se camina.

RESISTENCIA A LA ABRASIÓN SUPERFICIAL

ISO 10545–7

Para baldosas cerámicas destinadas al revestimiento de suelos, el ensayo se realiza según la metodología definida en la norma **ISO 10545-7**. La norma UNE-EN 14411 establece la obligatoriedad de declarar la clase de abrasión y el número de revoluciones. Según esta misma norma, cuando se exija, se puede declarar la clase de abrasión según el Anexo N (informativo) que clasifica las baldosas cerámicas esmaltadas según la resistencia a la abrasión:

|              |                                  |
|--------------|----------------------------------|
| <b>PEI 1</b> | Uso residencial tráfico ligero   |
| <b>PEI 2</b> | Uso residencial tráfico moderado |
| <b>PEI 3</b> | Uso comercial tráfico ligero     |
| <b>PEI 4</b> | Uso comercial tráfico moderado   |
| <b>PEI 5</b> | Uso comercial tráfico intenso    |

ISO 10545–6

La Norma UNE-EN 14411 especifica una resistencia a la abrasión profunda mínima para todas las baldosas no esmaltadas (UGL), expresada como volumen máximo admisible de material exportado tras la conclusión del ensayo (en mm³).

El ensayo se realiza según la metodología definida en la norma **ISO 10545-6**. La norma UNE-EN 14411 establece un valor máximo de volumen de materia pérdida (expresada en mm³) para las baldosas no esmaltadas del Grupo BIa de 175 mm³. **( < 175 mm³ )**

# Handling

## MANIPULACIÓN

### RECOMMENDATIONS FOR HANDLING

• Ceramic tile handling should be carried out attentively and with maximum safety to avoid falls or breakage. It is recommended to wear protective gloves during this operation to prevent injuries that may result from material breakage or sharp edges.

• For large pieces, it is advised to handle and/or transport them one by one and with at least two operators. Removing pieces from their packaging can be done manually or using a suction system. If using the latter, moisten them beforehand. Follow the manufacturer's instructions if using a mechanical handling or transfer system like a suction system. Tiles should be transported vertically to avoid bending them at the center. To preserve the piece, do not directly place it on the floor or against the wall; use cork supports or any other material capable of bearing its weight.

• When dealing with rectified tiles, both handling and installation should be done carefully to avoid impacts between pieces that could damage the edges.

### INSTALLATION RECOMMENDATIONS

• Installation should be carried out by qualified personnel.

• Before installation, ensure that the ceramic tiles are in perfect condition. Check tone, finish, and caliber. Lay out several pieces from various boxes to see the final aesthetic effect. No claims or returns will be accepted once materials are installed.

• Select appropriate tools and equipment to facilitate proper ceramic tile installation:

Suction cups  
Rubber mallet  
Notched trowel  
Leveling systems  
Spacers  
Ceramic tile cutter  
Adjustable traction pliers  
Bucket, sponge, and mop

•For proper installation, the substrate or surface must be completely clean, dry, and free of residues that could weaken adhesion. It should be leveled, flat, and possess adequate stability.

• Use perimeter joints to absorb structural movements after material installation. These joints are typically located on the perimeters of ceramic systems, at changes in planes, or around fixtures like drains, carpentry elements, pillars, etc. They should be continuous and not less than 8 mm wide, extending to the substrate and usually hidden by the skirting board.

• In large spaces, structural joints should be left according to the designer's instructions to reduce stresses caused by structural movements.

• Select the **adhesive material based on the type of ceramic tile you want to install**, the installation location (indoor or outdoor), and the climatic conditions the product will be exposed to (ambient temperature, humid areas, etc.). For interior lining of white porous tiles, we recommend using a type C1 adhesive material, and for interior and exterior lining and flooring of porcelain tiles, we advise using at least type C2 adhesive unless otherwise indicated on the box or in any documents. For large formats, in addition to type C2, a flexible adhesive is recommended. In humid areas, the use of waterproof materials is advised. For

installation over radiant heating, flexible materials are recommended. Follow the manufacturer's recommendations for preparing and using the adhesive material.

• The thin-set installation technique using a notched trowel is recommended, with a material thickness between 1-1.5 mm. Ensure uniform thickness across the surface using the notched trowel. Tiles should be dry; do not humidify them with water.

• For large format tiles, the double-bonding thin-set system involves applying bonding material both on the substrate surface and the tile's reverse side. Ensure even distribution of bonding material in both cases.

• To ensure complete bonding, tap or press the surface with a white rubber mallet, avoiding black or gray mallets.

• Use self-leveling spacer wedges to prevent tile unevenness, especially for staggered and large format installations. Tighten with pliers without exceeding their breaking point. Before use, ensure the spacers won't damage the tile surface, especially for textured or rectified tiles.

• Choose grout joints based on tile type, size, dimensional characteristics, and expansion. Avoid installation without joints; **UNE 138002** recommends minimum grout joints of 1.5 mm for interior spaces and 5 mm for exterior spaces.

• For pre-scored ceramic tiles, it is recommended to leave a 1.5 mm joint to match the width of the pre-score. Once installed, there should be no visible difference between the pre-score and the joint, resulting in a visually seamless surface between tiles. Before applying the grout, ensure that the pre-scored lines are clean and dry. After application, allow it to dry thoroughly and remove any excess using a sponge dampened with water.

• Select grouting material based on **UNE 138002** standards.

| DESTINATION ENVIRONMENT OF CERAMIC COATING                                                                             |          |

| Conditions with high mechanical and/or chemical demands                                                                | RG       |
| Food-grade and/or sanitary use conditions                                                                              | RG       |

• Grout floors 48 hours after installation and wall coverings after 24 hours. Before grouting, ensure joints are perfectly clean.

• Immediately remove excess grout with a damp sponge to prevent cleaning difficulties due to grout hardening.

• Protect tile surfaces during construction to prevent damage.Am imus ut experio

### RECOMENDACIONES MANIPULACIÓN

• La manipulación de las baldosas cerámicas debe realizarse prestando atención y con la máxima seguridad para evitar caídas o roturas. Se recomienda realizar esta operación con guantes de protección para evitar lesiones que puedan derivar de la rotura del material o de la existencia de alguna arista cortante.

• Para piezas de gran tamaño, se recomienda su manipulación y/o trasladado de una a una y por dos operarios, como mínimo. La extracción de las piezas de su embalaje se puede realizar manualmente o mediante algún sistema regulado por ventosas. Si se realizar mediante este último, humedecerlas con anterioridad. Si se utiliza sistema de manipulación o traslado mecánico como sistema regulado por ventosas, seguir las instrucciones del fabricante. Se recomienda trasladar la baldosa de forma vertical. Evitar la flexión de las piezas por su parte central. Para preservar la pieza, no apoyarla directamente ni sobre el suelo ni sobre la pared. apoyarla sobre soportes de corcho o cualquier otro material que resista su peso.

• Si se trata de baldosas rectificadas, tanto su manipulación como colocación debe de realizarse cuidadosamente, evitando los golpes entre piezas que puedan dañar las aristas.

### RECOMENDACIONES COLOCACIÓN

• La colocación se debe realizar por personal cualificado.

• Antes de la colocación, se recomienda comprobar que las baldosas cerámicas se encuentren en perfectas condiciones. Se recomienda revisar tono, acabado y calibre. Extender varias piezas, de varias cajas, para comprobar cuál sería el efecto estético final. No se admitirán reclamaciones o devoluciones de materiales ya colocados.

• Seleccionar las herramientas y útiles de trabajo adecuados para facilitar la correcta instalación de las baldosas cerámicas:

Ventosas  
Maza de goma  
Llana dentada  
Sistemas de nivelación  
Crucetas  
Cortadora baldosas cerámicas  
Pinza de tracción ajustable  
Cubo, esponja y fregona

• Para una correcta instalación, es necesario que el soporte o la superficie este completamente limpia, seca y sin residuos que puedan ocasionar puntos débiles de adhesión. Debe de estar nivelada, plana y poseer la estabilidad adecuada.

• Disponer de juntas perimetrales, que ayudaran a absorber movimientos estructurales tras la instalación del material. Suelen localizarse en los perímetros de los sistemas cerámicos, en los cambios de planos o dispositivos como sumideros, elementos de carpintería, pilares, etc. Deben ser continuas y su anchura no debe ser menor de 8 mm. Estas juntas deben llegar hasta el soporte y normalmente quedarán ocultas por el rodapié.

• En espacios de grandes dimensiones se recomienda dejar juntas estructurales, según indicaciones del proyectista, con el objetivo de disminuir las tensiones ocasionadas por movimientos estructurales.

• Seleccionar el **material de agarre en función de tipo de baldosa cerámica que se desea colocar**, el lugar de instalación (interior o exterior) y la climatología a la que se va a exponer el producto (temperatura ambiental, zonas húmedas, etc.). Para revestimiento interior de porosa blanca aconsejamos material de agarre tipo C1 y para revestimiento y pavimento interior y exterior de porcelánico aconsejamos como mínimo, tipo C2 cuando en la caja o en cualquier documento no se indique lo contrario. Para grandes formatos además de tipo C2, se recomienda que sea

flexible. En zonas húmedas se recomienda el uso de materiales impermeables. Para colocación sobre suelo radiante, de materiales flexibles. Respetar las recomendaciones del fabricante en la preparación y utilización del material de agarre.

• Se recomienda la técnica de colocación en capa fina con llana dentada, que se caracteriza por un espesor del material de agarre de entre 1-1,5mm. Para asegurar el mismo espesor del material de agarre en toda la superficie, se recomienda el uso de la llana dentada. Cuando se utilice esta técnica, las baldosas cerámicas deben de estar secas. No se recomienda su humidificación con agua.

• Para baldosas de grandes formatos se recomienda el sistema de capa fina con doble encolado que consiste en la aplicación de una capa del material de agarre en la superficie o soporte y también en el reverso de la baldosa a instalar. Em ambos casos el material de agarre debe de estar distribuido uniformemente por toda la superficie.

• Para asegurar el encolado completo de la baldosa, golpear o presionar la superficie con una maza de goma blanca, nunca de color negro o gris.

• Se recomienda el uso de crucetas separadoras autonivelantes para evitar posibles desniveles de las baldosas, sobre todo en la colocación trabada y de grandes formatos. Apretar con la tenaza sin superar el punto de rotura de esta. Antes de utilizar el sistema de crucetas autonivelantes, se recomienda comprobar que no dañen la superficie de la baldosa cerámicas, sobres todo en baldosas con relieve o rectificadas.

• Las juntas de colocación se deben de elegir en función del tipo y formato de la baldosa, sus características dimensionales o de dilatación, etc. No se recomienda la colocación sin junta. La norma **UNE 138002** recomienda juntas de colocación mínimas de 1.5 mm en espacios interiores y 5 mm es espacios exteriores.

• Para baldosas cerámicas con precorte se recomienda dejar una junta de separación de 1,5 mm en correspondencia con el ancho del precorte y una vez instaladas no observar ninguna diferencia entre el precorte y la junta para que estéticamente se observe una superficie homogénea entre cada pieza. Antes de aplicar el material de rejunte asegúrese de que los precortes estén limpios y secos. Una vez aplicado, dejar secar bien y limpiar los restos con una esponja empapada en agua.

• Selección del material de rejuntado en base a la norma **UNE 138002**:

| AMBIENTE DE DESTINO DEL REVESTIMIENTO CERÁMICO                                                                                         |          |
|----------------------------------------------------------------------------------------------------------------------------------------|----------|
| Condiciones de uso doméstico en recintos secos                                                                                         | CG1      |
| Condiciones de uso doméstico en recintos húmedos                                                                                       | CG2W     |
| Pavimentos y revestimientos exteriores                                                                                                 | CG2WA    |
| Condiciones que requieran estanquidad al agua y al vapor                                                                               | RG       |
| Condiciones de inmersión (piscinas, spa, balnearios ... ) con tratamiento de agua clorada                                              | CG2WA/RG |
| Condiciones de inmersión (piscinas, spa, balnearios ... ) de elevada exigencia o con tratamiento de electrólisis salina o agua de mar. | RG       |
| Condiciones de altas exigencias mecánicas y /o químicas                                                                                | RG       |
| Condiciones de usos alimentarios y /o sanitarios                                                                                       | RG       |

• En pavimentos, proceder al rejuntado de las baldosas 48 horas después de su instalación. En revestimientos, tras 24 horas. Antes del rejuntado asegurarse de que las juntas se encuentren perfectamente limpias.

• Retirar el material de rejunte sobrante inmediatamente con la ayuda de una esponja humedecida con agua. No dejar secar el material para evitar problemas de limpieza debidos al endurecimiento del material.

• Una vez finaliza la colocación del material y, mientras dura la obra, proteger la superficie de las piezas para evitar que se dañe la superficie.

# Cleaning

## LIMPIEZA

### POST-INSTALLATION CLEANING

• It is recommended to clean with water immediately after installation to prevent cement residues from hardening and adhering to the surface of the ceramic tiles.

• If cleaning was not performed after installation and residues remain, clean with an acid-based detergent or diluted acids (e.g., vinegar), and then rinse thoroughly with plenty of water. Do not use undiluted products, as they may damage the ceramic tile surface. This cleaning should not be performed on newly installed tiles.

• It is recommended to clean with water immediately after installation to avoid hardened cement residues on the tile surface.

### REGULAR CLEANING

• Sweep or vacuum the surface and then wash with water or a diluted solution of neutral detergent. Do not use acid- or alkaline-based detergents.

### DEEP CLEANING OF STAINS AND ENCRUSTATIONS

• In case of spills that may cause stains or buildup that cannot be removed with regular cleaning, the use of specific cleaning agents and procedures is recommended, depending on the type of stain. Before cleaning the entire surface, test the cleaning agent on a small, inconspicuous area of the ceramic tile to check for potential chemical degradation.

The following table lists the most suitable cleaning products for each type of stain:

| TYPE OF INCRUSTED DIRT                        | PRODUCT BY<br>FILA  | PRODUCT BY<br>FABER                           |
|-----------------------------------------------|---------------------|-----------------------------------------------|
| Light organic everyday dirt                   | CLEANER PRO         | FLOOR CLEANER                                 |
| Heavy organic dirt                            | PS87 PRO            | DEEP DEGREASER /<br>TILE CLEANER              |
| Ink, marker pen, plastic paint                |                     |                                               |
| Detergent, soap or wax remains                |                     | DEEP DEGREASER                                |
| Fat, grease, oil, soft drinks, food and sauce |                     |                                               |
| Rubber, tyres                                 |                     |                                               |
| Epoxy grout residues                          | CR10                | EPOXY CLEANER                                 |
| Cementitious grout residues, saltpeter        | DETERDEK PRO-PHZERO | CEMENT REMOVER                                |
| Limescale                                     |                     | TILE CLEANER GEL                              |
| Metal scratches                               |                     |                                               |
| Rust                                          | DETERDEK-NORUST     | DETERDEK                                      |
| Graffiti                                      | NOPAINT STAR        | GRAFITTI REMOVER                              |
| Acrylic, alkyd & nitrosynthetic spray paint   |                     | GRAFITTI REMOVER /<br>KIT SILI-GONE           |
| Green plant stains, algae, moss, lichen       | ALGACID             | DEEP DEGREASER /<br>COLOURED STAIN<br>REMOVER |
| Outdoor black mould                           |                     |                                               |
| Silicon & glue residues                       | ZERO SIL            | KIT SILI-GONE                                 |
| Foam & polyurethane residues                  |                     | EPOXY CLEANER                                 |
| Marks made by adhesive tape or suction cups   |                     | SOLVENT STRIPPER                              |
| Candlewax, tree resin                         |                     | DEEP DEGREASER                                |
| Dirty tile joints                             | FUGANET             | GROUT CLEANER                                 |

### LIMPIEZAS TRAS LA COLOCACIÓN

• Se recomienda realizar con agua e inmediatamente tras la instalación del material para evitar que los residuos cementosos se endurezcan y se queden adheridos a la superficie de las baldosas cerámicas.

• Si no se ha realizado la limpieza tras su colocación y quedan residuos adheridos limpiar con un detergente en base ácida o con ácidos diluidos (ej. Vinagre) y, posteriormente, enjuagar con abundate agua. No utilizar productos puros podrían atacar la superficie de las baldosas cerámicas. Esta limpieza no debe realizarse sobre las baldosas cerámicas recién colocadas.

• Se recomienda realizar con agua e inmediatamente tras la instalación del material para evitar que los residuos cementosos se endurezcan y se queden adheridos a la superficie de las baldosas cerámicas.

### LIMPIEZA HABITUAL

• Se recomienda barrer o aspirar la superficie y posteriormente lavar con agua o solución diluida de detergente neutro. No utilizar detergentes en base ácida o alcalina.

### LIMPIEZA EXTRAORDINARIA DE MANCHAS E INCRUSTACIONES

• Ante el derrame de ciertos productos sobre la superficie de las baldosas cerámicas que pueden ocasionar manchas o incrustaciones que no pueden ser eliminadas mediante la limpieza habitual, se recomienda la utilización de agentes de limpieza y procedimientos específicos de limpieza cuya elección debe realizarse en función del tipo de mancha.

Antes de proceder a limpiar la totalidad de la superficie se recomienda comprobar su efecto sobre una pequeña zona de las superficie de la baldosas cerámica para comprobar la existencia de degradaciones químicas. En la siguiente tabla se detallan los productos de limpieza más adecuados a cada tipo de mancha:

| TIPO DE SUCIEDAD<br>INCRUSTADA                | SOLUCIÓN FILA       | SOLUCIÓN FABER                                |
|-----------------------------------------------|---------------------|-----------------------------------------------|
| Suciedad orgánica ligera (diaria)             | CLEANER PRO         | FLOOR CLEANER                                 |
| Suciedad orgánica intensa                     | PS87 PRO            | DEEP DEGREASER /<br>TILE CLEANER              |
| Tintes, rotulador, pintura plástica           |                     |                                               |
| Residuos de detergentes, jabones, y ceras     |                     | DEEP DEGREASER                                |
| Grasa, aceite, refrescos, comidas y salsas    |                     |                                               |
| Goma, neumáticos                              |                     |                                               |
| Residuos junta epoxi                          | CR10                | EPOXY CLEANER                                 |
| Residuos junta cementosa, salitre             | DETERDEK PRO-PHZERO | CEMENT REMOVER                                |
| Residuos calcáreos                            |                     | TILE CLEANER GEL                              |
| Rayas de metales                              |                     |                                               |
| Óxidos                                        | DETERDEK-NORUST     | DETERDEK                                      |
| Pintadas de grafitis                          | NOPAINT STAR        | GRAFITTI REMOVER                              |
| Spay acrílicos, alquídicos, y nitrosintéticos |                     | GRAFITTI REMOVER /<br>KIT SILI-GONE           |
| Verdín, algas, musgos, líquenes               | ALGACID             | DEEP DEGREASER /<br>COLOURED STAIN<br>REMOVER |
| Ennegrecidos exteriores                       |                     |                                               |
| Residuos de silicona y pegamentos             | ZERO SIL            | KIT SILI-GONE                                 |
| Residuos espuma y poliuretano                 |                     | EPOXY CLEANER                                 |
| Residuos cinta adhesiva, cercos de ventosas   |                     | SOLVENT STRIPPER                              |
| Cera de vela, resina de árboles               |                     | DEEP DEGREASER                                |
| Suciedad en la junta                          | FUGANET             | GROUT CLEANER                                 |

# HARMONY

Once ceramic tiles reach the end of their useful life, they are inert waste. For their proper management, they should be given to an authorized waste management body for recycling purposes.

Las baldosas cerámicas una vez que llegan al final de su vida útil son un residuo inerte, que para su correcta gestión debe ser entregado a un gestor autorizado de residuos, favoreciendo su reciclado.
